Figure 1. Typical CP200 Pressure Loaded Pressure Reducing Regulator

WARNING

Failure to follow these instructions or to properly install and maintain this equipment could result in an explosion and/or fire causing property damage and personal injury or death.

Fisher® regulators must be installed, operated, and maintained in accordance with federal, state, and local codes, rules and regulations, and Emerson Process Management Regulator Technologies, Inc. (Regulator Technologies) instructions.

If the regulator vents gas or a leak develops in the system, service to the unit may be required. Failure to correct trouble could result in a hazardous condition.

Call a gas service person to service the unit. Only a qualified person must install or service the regulator.

Introduction

Scope of the Manual

This manual provides instructions for the installation, maintenance, and parts ordering information for CP200 Series pressure loaded pressure reducing regulators.

Product Description

The CP200 Series pressure loaded regulators are intended for general pressure reduction for commercial and industrial applications using pressure factor measurement, also referred to as fixed factor billing.

Specifications

The Specifications section lists the specifications for the regulator. The following information are stamped on the regulator at the factory: Type, date of manufacture, spring range, orifice size, maximum inlet pressure, maximum operating outlet pressure, and maximum outlet casing pressure.
