

Trails west:

- Mountain men helped to open the trails to the West.
- During the height of the fur trade - many trappers killed too many animals and had to explore new areas to find animals. They created trails that others would use to travel West.
- Some mountain men worked as guides for people traveling West in groups.

Creating America Chapter 13:

Creating America's Future James T. Ziegenfuss, 2008 American citizens assume that the future for this country will be a future much like the past beautiful in many respects This optimistic view is now countered by those who see a country in decay struggling to address problems in health care education the environment international affairs and other sectors This book calls on citizens and their leaders to build the future they most desire The future should not happen to citizens but instead be created by citizens In part one this book examines the reasons for future building and the processes for doing so through interactive public sector private sector dialogue and by applying methods of continuous improvement reengineering and visioning In part two Ziegenfuss presents scenarios of America's future that include the country's points of decay trends vision and strategies in each of the parts of America meaning energy health care transportation business housing and urban development education arts and entertainment science environment agriculture international affairs and defense and law and justice Public and private citizens especially students teachers and planners are encouraged to lead the debates with hope and vision defining the future they most desire Book jacket

Creating the Administrative Constitution Jerry L. Mashaw,2012-06-26 This groundbreaking book is the first to look at administration and administrative law in the earliest days of the American republic Contrary to conventional understandings Mashaw demonstrates that from the very beginning Congress delegated vast discretion to administrative officials and armed them with extrajudicial adjudicatory rulemaking and enforcement authority The legislative and administrative practices of the U.S. Constitution's first century created an administrative constitution hardly hinted at in its formal text Beyond describing a history that has previously gone largely unexamined this book in the author's words will demonstrate that there has been no precipitous fall from a historical position of separation of powers grace to a position of compromise there is not a new administrative constitution whose legitimacy should be understood as not only contestable but deeply problematic
