Cullen,Pamela

Wilcox,2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source In response SAGE Reference is publishing the two volume Encyclopedia of Criminological Theory available in both print and electronic formats This serves as a reference source for anyone interested in the roots of contemporary criminological theory Drawing together a team of international scholars it examines the global landscape of all the key theories and the theorists behind them presenting them in the context needed to understand their strengths and weaknesses In addition to interpretations of long established theories it also offers essays on cutting edge research as one might find in a handbook And like an unabridged dictionary it provides concise to the point definitions of key concepts ideas schools and figures Coverage will include contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory The Oxford Handbook of Criminology Rod Morgan,Mike Maguire,Robert Reiner,2012-04-12 The approach of the year 2000 has made the study of apocalyptic movements trendy But groups anticipating the end of the world will continue to predict Armageddon even after the calendar clicks to triple Os *Criminological Theory* Matt

Cullen, Pamela Wilcox, 2013-03-21 This handbook presents a series of essays that captures not the past of criminology but where theoretical explanation is headed The volume is replete with ideas discussions of substantive topics with salient theoretical implications and reviews of literatures that illuminate avenues along which theory and research evolve *Subject Guide to Books in Print*, 1997 *Recent Acquisitions* Ohio State University. College of Law. Library, 1990 **Recent Developments in Criminological Theory** Scott A. Lukas, 2017-07-05 This volume contains recent and cutting edge articles from leading criminological theorists The book is organized into ten sections each representing the latest in the multi disciplinary orientations representing a cross section of contemporary criminological theory These sections include 1 Classical and Rational Choice 2 Biological and Biosocial 3 Psychological 4 Social Learning and Neutralization 5 Social Control 6 Social Ecology Sub cultural and Cultural 7 Anomie and Strain 8 Conflict and Radical 9 Feminist and Gender 10 Critical Criminologies Anarchist Postmodernist Peacemaking The articles were selected based on their contributions to advancing the field including ways in which the authors of each chapter understand the current theoretical tendencies of their respective approaches and how they envision the future of their theories Because of this the articles focus on theory rather than empirical research Of particular note is the tendency toward integration of different perspectives as described by editors Henry and Lukas in their original introduction to this volume **Understanding Criminology** Sandra Walklate, 1998 This is one of a series of student textbooks designed to cover the major areas of debate within the fields of
