Crisis Opportunity And The Christian Future:

Crisis, Opportunity and the Christian Future James B. Jordan, 2016-11-11 We are witnessing the end of Western Civilization The present crisis in our culture is the greatest since the first century Many commentators on the present scene believe that the entire world is moving into a period of neo tribalism In this striking book theologian James B Jordan argues that this cultural change is part of God s ongoing plan for humanity the plan by which the Holy Spirit grows God s daughter humanity into a bride for His Son The present crisis provides a tremendous opportunity for the Christian Church to challenge and transform the world as never before Here Jordan points to how this can be done While many view the present crisis with dismay and are looking backwards to older traditions Jordan argues that God is calling us forward and that the Bible points the way

The Christian Betrayal of the United States Carl Wells, 2010-10-22 The Christian Betrayal of the United States theorizes that 100% of the problems of the United States have their root in the conservative Bible believing Christian church of this country Countless books by liberal Christians or by non Christians have accused the Christian right of being a dangerous segment of our country Following the principles of the Christian right will lead to tyranny so the theory goes The Christian Betrayal of the United States takes a very different tack According to the author the Bible believing Christians have betrayed their country already by their actions in many distinct arenas of life Those who have cursed the Bible believing Christians as being too Christian have got it exactly backward They may curse Christians again when they understand that Christians were not Christian enough The author far from being a liberal Christian or a humanist is a self professed conservative Bible believing Christian He strives to show how his own people have betrayed their nation It is a dark story On the brighter side the author also tries to grope toward a solution of the problems he and his people have caused

The Glory of Kings Peter J. Leithart, John Barach, 2011-09-01 Over the past several decades Reformed theologian and biblical scholar James B Jordan has produced a unique body of work His electrifying commentaries and essays on Scripture along with his penetrating writings on Trinitarian theology liturgics music and culture have inspired a growing number of pastors and theologians In this Festschrift Jordan s friends and associates celebrate his contributions by applying his methods and insights to a range of biblical theological liturgical and cultural questions The Glory of Kings aims to bring Jordan s work to the attention of a wider audience and to introduce the work of a scholar that R R Reno has called one of the most important Christian intellectuals of our day

The End of Protestantism Peter J. Leithart, 2016-10-18 The Failure of Denominationalism and the Future of Christian Unity One of the unforeseen results of the Reformation was the shattering fragmentation of the church Protestant tribalism was and continues to be a major hindrance to any solution to Christian division and its cultural effects In this book influential thinker Peter Leithart critiques American denominationalism in the context of global and historic Christianity calls for an end to Protestant tribalism and presents a vision for the future church that transcends post Reformation divisions

Leithart offers pastors and churches a practical agenda backed by theological arguments for pursuing local unity now. Unity in the church will not be a matter of drawing all churches into a single existing denomination says Leithart. Returning to Catholicism or Orthodoxy is not the solution. But it is possible to move toward church unity without giving up our convictions about truth. This critique and defense of Protestantism urges readers to preserve and celebrate the central truths recovered in the Reformation while working to heal the wounds of the body of Christ.

God's Kitchen Michael Bull, 2013-01-08. The Old Testament is a violent bloody book but the more we modern Christians neglect it the more our gospel loses its teeth. This little book will call you out, cut you up, lift you up and set you on fire. It begins where all spiritual meat does not at the dinner table, not in the kitchen nor even at the market. It begins in the abattoir. The God of the Old Testament is a butcher only because the Christ of the New Testament is a chef. Real theology deals with food with milk and honey, flesh and blood, bread, oil and wine. It is nourishment for children, wisdom for kings and courage for prophets. God gave us food to teach us about life and death, God gave us sacrifice to teach us about death and resurrection. We prepare food for ourselves as God prepares us for Himself. The culinary art is close to the heart of the God who is a consuming fire.

Opportunity Elmer Anderson Carter, 1929. **The Christian Century**, 1927. **Class, Culture and Curriculum** Lawrence Angus, 1986. This monograph presents a fictionalized case study of a real Catholic school in Australian society, Christian Brothers College C B C, which illustrates the manner in which forces for both continuity and change are negotiated at C B C. After a brief introduction, the volume opens with four thematic papers by separate authors followed by an extensive ethnographic study of the C B C situation. The four papers are as follows: 1. Christian Brothers College: A View from Overseas by Louis M. Smith; 2. Continuity and Change in the Brothers Educational Mission by Lawrence Angus; 3. Cultural Reproduction of the Labor Market Work Experience at C B C by Peter Watkins; and 4. Reproduction and Contestation: Class, Religion, Gender and Control at Christian Brothers College by Richard J. Bates. The subsequent ethnographic study first identifies three main themes: C B C and religious education; administration, authority, relations and pupil control; and education and social mobility. Subsequent topics analyzed in depth include reproduction and transformation at C B C; social mobility; C B C schooling and access to the job market; C B C and the competitive academic curriculum; the hegemonic curriculum and cultural politics; individual autonomy within institutional control; authority and autonomy at C B C; and confronting the future. An annotated bibliography is included.
