**Critical Theory Today** Lois Tyson, 2012-09-10 Critical Theory Today is the essential introduction to contemporary critical theory. It provides clear simple explanations and concrete examples of complex concepts making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in depth coverage of the most common approaches to literary analysis today: feminism, psychoanalysis, Marxism, reader response theory, new criticism, structuralism, and semiotics, deconstruction, new historicism, cultural criticism, lesbian gay queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.
