Crocodile Paper Bag Puppets:

The Storytime Handbook Nina Schatzkamer Miller, 2014-01-27 Fresh fun ideas for children's storytime fill this book. The author, a long time storytime facilitator, has put together 52 weekly themes plus additional plans for holidays all with detailed instructions for talking about the theme and choosing the books, crafts, songs, poems, games, and snacks. Each storytime idea is illustrated with photographs of a suggested craft and snack for easy reference. Libraries, bookstores, preschools, and parents alike can use this book to offer themed storytimes that include discussion, literature, art, music, movement, and food. Options are provided for each storytime so the ideas can be used year after year. *ABC Paper Bag Puppets* Dwayne Douglas Kohn, 2013-04-28 Make a paper bag puppet for each letter of the alphabet: A for alligator, B for bat, C for cat, all the way to Z for zebra. 26 animal puppets in all. Great for oral language arts activities, plays, story time, alphabet songs, and more. Includes stationery that fits on the back of each puppet for creative writing. Teaching Design and Technology 3 - 11 Douglas Newton, 2005-03-02 Douglas Newton's *Teaching Design and Technology* gives encouragement to creativity in younger pupils. Aimed at ages 3-11, it contains a variety of suggestions for activities providing more than just a collection of ideas; there are many suggestions that might help children plan and work towards quality products. *The Times Educational Supplement*: An excellent book which is both thought provoking and extremely practical. The philosophy and history behind D.T. is enlightening and very entertaining, whilst the numerous ideas for practical activities make it a pick up and use book. Unusually, it provides a wide range of activities for children as young as 3 up to 11 years of age, and detailed lesson plans demonstrate how they can be presented in class. The problem solving approach taken by this book supports views on best practice as described in the government publication *Excellence and Enjoyment*. As the focus in education is on developing a more creative curriculum, this book is a must for both experienced teachers and students alike. Linda Johnston, Head at Sedgefield Hardwick Primary. This book is packed full of sound advice and good ideas interlaced with the essence of what Design and Technology in primary schools should be. David Jinks, Jerwood Laureate. A very practical book which focuses on sound advice from an expert in D.T. education. Here you will find a wealth of ideas for putting into practice. What shines through is the depth of experience that Newton brings to the work. This is an invaluable resource for any primary school and deserves to be widely read. I have no doubt that teachers will rate it highly. *Primary Science Review*. This very readable book gives a wealth of simple, interesting examples of technological development that will be appreciated by children throughout the primary school. Very practical general teaching advice is given throughout, a valuable resource for trainees and teachers who lack experience in this subject. *Journal of Education for Teaching*. Training to teach Design and Technology. Need ideas for your lessons? Want to refresh your D.T. teaching? Professor Douglas Newton's succinct guide to teaching design and technology uses ideas that have been road tested and developed over his many years of teaching and of training student teachers and practitioners.
