Pictures of the Heart Joshua S. Mostow, 1996-01-01 The Hyakunin Isshu or One Hundred Poets One Poem Each collection is a sequence of one hundred Japanese poems in the tanka form selected by the famous poet and scholar Fujiwara no Teika 1162 1241 and arranged in part to represent the history of Japanese poetry from the seventh century down to Teika's own day The anthology is without doubt the most popular and widely known collection of poetry in Japan a distinction it has maintained for hundreds of years In this study Joshua Mostow challenges the idea of a final or authoritative reading of the Hyakunin Isshu and presents a refreshing persuasive case for a reception history of this seminal work In addition to providing a new translation of this classic text and biographical information on each poet Mostow examines issues relating to text and image that are central to the Japanese arts from the Heian into the early modern period By using Edo period woodblock illustrations as pictorializations of the poems as pictures of the heart or meaning of the poems text and image are pieced together in a holistic approach that will stand as a model for further research in the interrelationship between Japanese visual and verbal art
