Introduction

Tic-tac-toe, also known as noughts and crosses or Xs and Os, is a classic pencil-and-paper game that has been enjoyed by people of all ages for centuries. Its simplicity and strategic depth have made it a popular choice for both casual and competitive play. This project report explores the design, development, and implementation of a digital version of this timeless game. It delves into the game's objectives, rules, user interface, game logic, and the challenges encountered during its creation.

The digital version of Tic-tac-toe aims to recreate the familiar gameplay experience of the traditional game, while leveraging the advantages of a digital platform. This includes features such as automated turn management, visual feedback for player moves, and the ability to play against a computer opponent or other players online.

The project focuses on delivering a user-friendly and engaging experience for players of all skill levels. It aims to capture the strategic essence of the game while providing a modern and accessible interface.
