drawing insights from Ghana's NHIS experience **Ghana, Poverty Reduction Strategy Paper Annual Progress Report**
, 2006 **EQUITY IN COVID-19** Anika Altaf, Dzodzi Tsikata, Gertrude Dzifa Torvikey, Marleen Dekker, 2024-09-25 This Open
Access edited volume presents twelve African case studies that systematically reconstruct document and analyse how
national governments and other stakeholders took equity into account in their initial policy responses to the COVID 19
pandemic At the onset of the pandemic many African governments acted quickly to suppress the virus through various public
health measures including lockdowns mobilizing healthcare resources and designing responses to support the economy and
the population There were however significant variations in the severity and type of measures taken as well as their
accessibility and impacts Equity was not a given and therefore important questions have been raised about who benefitted
and who were left unprotected from the interventions particularly those designed to protect income and basic services The
book based on a variety of empirical data and disciplinary perspectives of research teams from across the continent examines
the inclusivity of mitigation and policy responses It situates these findings on short term interventions and impact in debates
about the longer term implications of the COVID 19 pandemic on the development of the African continent and proposes new
directions for policy research and practice in responses and interventions during crises *Health Financing in Ghana*

African countries It further sheds light on the paradox of poverty despite Africa's plentiful resources and traces its roots in
historical legacies of colonialism and leadership failures The book examines the African Peer Review Mechanism APRM
initiated by the African Union AU in 2003 and explores the APRM's role in promoting sustainable development political
stability and integration Against this background the book dissects the four thematic areas of the APRM with a focal point on
democratic and political governance illuminating challenges and proposing solutions In case studies on selected African
countries contributors present governance structures highlighting the struggle for accountability representation and public

Government,Ghana. National Development Planning Commission,2006 *The Political Economy of Universal Healthcare in Africa* Philip C. Aka,Hassan Wahab,Yvette M. Alex-Assensoh,2022-04-27 The global rise in pandemics most recently COVID 19 and other health challenges some of which are due to climate change have imposed significant challenges on the healthcare systems in economies around the world Thus this book deals with an issue that is very timely and relevant not just in Africa but globally It critically assesses healthcare reforms in Ghana under the Fourth Republic since 1993 Although it focuses on Ghana's National Health Insurance Scheme of 2003 the book instructively goes beyond this program The book argues that although Ghana is a bellwether of healthcare reforms in Africa its healthcare initiatives are still far from the service haven of healthcare as a human right Themes that animate the book's argument include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens Key highlights of the book include an increased accent on health as a human right emphasis on comparative analysis in healthcare studies and the formulation of a four hallmark framework embedded in economics law politics and human rights to act as a guide for assessment of healthcare reforms in Africa in particular and Ghana more specifically Using Ghana as a case study and analytical window into the world the book offers a valuable and timely resource for academics students and policymakers across the disciplines of development and healthcare economics law public policy political science sociology and African and Caribbean studies as well as in various fields in health science
