## **D1 Unofficial Scheme 2014:**

**General Psychotherapy** Lotte Hartmann-Kottek, 2022-03-26 This book highlights common similarities between the various schools of psychotherapy. It provides psychotherapists with the underlying neurophysiological, developmental, psychological, and relationship-oriented matrix, basic needs, and their regulation deficits, trauma, and conflict processing patterns, including accompanying exercises, as well as opportunities for healing, correction, and stabilisation, and the ways in which to apply these methods in a therapeutically mindful way for the benefit of the patient. The new university-based psychotherapy training covers the four fundamental schools of psychotherapy, i.e. the previous standard approaches plus the systemic and humanistic ones. Focusing on the common ground builds bridges of understanding and encourages collaboration. This expanded new range of methods to access patients constitutes a substantial development in the field of psychotherapy and will also influence the psychotherapy practice of experienced colleagues. Written for medical and psychological psychotherapists, psychosomatic doctors, psychiatrists, and other specialists with additional psychotherapeutic qualifications and for students of psychotherapy.

### **Maternal Health Care : Policies, Technical Standards and Services**

**Accessibility in Eight Countries in the Western Pacific Region** WHO Regional Office for the Western Pacific, 2019-02-11 Target 5A of the United Nations Millennium Development Goals (MDGs) was to reduce maternal deaths by 75% between 1990 and 2015. The Maternal Mortality Estimation Inter-Agency Group, comprising the World Health Organization (WHO), the United Nations Children's Fund (UNICEF), the United Nations Population Fund (UNFPA), the World Bank Group, and the United Nations Population Division, assessed the 95 countries with an MMR higher than 100 in 1990. The report notes that Cambodia, the Lao People's Democratic Republic, and Mongolia have achieved this target in the Western Pacific Region. However, maternal mortality remains higher than the Sustainable Development Goal (SDG) target in five countries in the Region. WHO has developed evidence-based maternal health recommendations for reducing maternal mortality and morbidity. This review compares national guidelines and protocols, implementation, and health system standards to WHO recommendations for eight countries that account for 96% of maternal deaths in the Western Pacific Region.

### **Traditional Communities in**

**Indonesia** Lilis Mulyani, 2022-08-26 This book explores the ambiguous legal status of traditional adat communities in Indonesia and their informal traditional rights to communal ulayat land. It discusses the lack of recognition of adat communities and their legal rights in the Indonesian constitution, surveys legal consideration of informal legal rights both in Indonesia and elsewhere, and examines how thinking about these issues has evolved over time in Indonesia. It provides an in-depth study of the ways that government policies on adat communities are developed, changed, and implemented, and how different actors give meaning to these policies, particularly government bodies with authority to manage land and forests, which exercise discretion as to the operational implementation of ideas about adat groups as legal persons and ulayat land rights as land title, thus enabling their exploitation by government and business. The book highlights how these issues are

becoming more pressing as problems relating to legal personhood and rights to traditional customary land are increasingly giving rise to violent conflict dispossession and marginalisation It also demonstrates how adat communities can take action and are doing so to protect their legal positions      Principled Pragmatism in Practice Fabienne Bossuyt, Peter van Elsuwege, 2021-04-06 As the EU's relations with Russia remain at an all time low and continue to be in a state of paralysis marked by de institutionalisation inertia and estrangement the EU's policy towards Russia seems up for review By taking stock of the implementation of the EU's Global Strategy and the five principles that are guiding EU Russia relations this volume provides a forward looking angle and contributes to a better understanding of the current EU Russia relationship and the prospects for overcoming the existing deadlock By bringing together European and Russian scholars and adopting an interdisciplinary perspective that combines insights from EU studies international relations and European and international law the book provides a comprehensive and holistic view on the state of affairs in EU Russia relations      **Political Ecology of REDD+ in Indonesia** Jonas I. Hein, 2018-11-21 Indonesia's commitment to reducing land based greenhouse gas emissions significantly includes the expansion of conservation areas but these developments are not free of conflicts This book provides a comprehensive analysis of agrarian conflicts in the context of the implementation of REDD Reducing Emissions from Deforestation and Forest Degradation and forest carbon offsetting in Indonesia a country where deforestation is a major issue The author analyzes new kinds of transnational agrarian conflicts which have strong implications for global environmental justice in the REDD pilot province of Jambi on the island of Sumatra The chapters cover the rescaling of the governance of forests privatization of conservation and the transnational dimensions of agrarian conflicts and peasants resistance in the context of REDD The book builds on an innovative conceptual approach linking political ecology politics of scale and theories of power It fills an important knowledge and research gap by focusing on the socially differentiated impacts of REDD and new forest carbon offsetting initiatives in Southeast Asia providing a multi scalar perspective It is aimed at scholars in the areas of political ecology human geography climate change mitigation forest and natural resource management as well as environmental justice and agrarian studies The Open Access version of this book available at <http://www.tandfebooks.com/doi/view/10.4324/9781351066020> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license      Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events      *Spacing Law and Politics* Leif Dahlberg, 2016-04-20 Examining the inherent spatiality of law both theoretically and as social practice this book presents a genealogical account of the emergence and the development of the juridical In an analysis that stretches from ancient Greece through late antiquity and early modern and modern Europe and on to the contemporary courtroom it considers legal and philosophical texts artistic and literary works as well as judicial practices in order to elicit and document a series of critical moments in the

history of juridical space Offering a more nuanced understanding of law than that found in traditional philosophical political or social accounts of legal history Dahlberg forges a critical account of the intimate relations between law and politics that shows how juridical space is determined and conditioned in ways that are integral to the very functioning and malfunctioning of law

**Beyond Religious Freedom** Elizabeth Shakman Hurd, 2015-09-01 In recent years North American and European nations have sought to legally remake religion in other countries through an unprecedented array of international initiatives Policymakers have rallied around the notion that the fostering of religious freedom interfaith dialogue religious tolerance and protections for religious minorities are the keys to combating persecution and discrimination *Beyond Religious Freedom* persuasively argues that these initiatives create the very social tensions and divisions they are meant to overcome Elizabeth Shakman Hurd looks at three critical channels of state sponsored intervention international religious freedom advocacy development assistance and nation building and international law She shows how these initiatives make religious difference a matter of law resulting in a divide that favors forms of religion authorized by those in power and excludes other ways of being and belonging In exploring the dizzying power dynamics and blurred boundaries that characterize relations between expert religion governed religion and lived religion Hurd charts new territory in the study of religion in global politics A forceful and timely critique of the politics of promoting religious freedom *Beyond Religious Freedom* provides new insights into today's most pressing dilemmas of power difference and governance

**Planning for a Material World** Laura Lieto, Robert Beauregard, 2015-11-06 Today urban scholars think of cities and regions as evolving through networks of human associations technologies and natural ecologies This being the case planners are faced with the task of navigating a profoundly material world Planning with and for humans alone is unacceptable in the unfolding of urban processes non human things cannot be ignored This inclusive vision has consequences for how planners envision the connections among norms technologies and life worlds as well as how they design and implement their plans The contributors to this volume utilize a variety of examples ecologically sensitive regional planning in Naples Italy congestion pricing in New York City and public participation in Europe among others to explore how planners engage a heterogeneous and restless world Inspired by assemblage thinking and actor network theory each chapter draws on this new materialism to acknowledge in quite pragmatic ways that spatial politics is a process of becoming that is inseparable from the materiality of urban practices
