

# The Teenage Liberation Handbook

***how to quit school and  
get a real life and education***

by Grace Llewellyn

This is a very dangerous book. It contradicts all the conventional wisdom about dropouts and the importance of a formal education. It is funny and inspiring. Do not, under any circumstances, share this book with a bright, frustrated high-schooler being ground into mind fudge by the school system. This writer cannot be responsible for the happiness and sense of personal responsibility that might come from reading this book.
