Teaching Hacks: Fixing Everyday Classroom Issues with Metacognition Nathan Burns, 2024-05-31 This book is a practical guide offering new ways to fix many typical day to day issues in schools using metacognition to offer effective and efficient solutions Discover new ways to enhance your own teaching with metacognition and how to apply it to many common aspects of teaching and learning Every chapter is written by a different education expert and takes a solution focused approach exploring metacognitive strategies and ideas for the classroom Key topics include Smart revision strategies Nuanced and effective feedback The power of modelling answers Student motivation and resilience Supporting struggling writers Integrating metacognition across the curriculum And much more *Recasting the Insolvency Regulation* Vesna Lazić, Steven Stuij, 2019-12-12 This book comprises contributions relating to the Insolvency Regulation Recast which recently entered into force The authors analyse the changes introduced and give their views on the improvements that are thereby achieved In other words they assess to what extent the amendments have mitigated the disadvantages of the previous Insolvency Regulation Three of the chapters concentrate on the issues pertaining to jurisdiction such as the problem of forum shopping by re locating the debtor's centre of main interests Furthermore the extent to which the parties have the freedom to contract within the framework of the Insolvency Regulation Recast is discussed Also the relevance and consequences of recent developments in corporate law for the current cross border insolvency framework as well as the jurisdictional issues concerning approval requirements are amongst the matters addressed Aside from the jurisdictional matters the question of the law applicable to so called avoidance actions is analysed and cross border cooperation between national authorities in the field of insolvency is touched upon To conclude this book covers a range of specific and intriguing topics brought up by the Insolvency Regulations Recast This third volume in the Short Studies in Private International Law Series is primarily aimed at legal academics dealing with cross border insolvency but it will also prove useful to insolvency judges and practitioners as well as those specialised in financial and fiscal law Finally advanced students as well as those with a general interest in insolvency law will also find it of added value div Vesna Lazić is Senior Researcher at the T M C Asser Institute and Associate Professor of Private Law at Utrecht University in The Netherlands Steven Stuij is an expert in private international law and PhD Candidate at the Erasmus School of Law Rotterdam div **Vulnerability in Police Custody** Roxanna Dehaghani, 2019-02-13 This book provides a nuanced and timely contribution to the question of vulnerability in police custody It addresses the implementation of the appropriate adult safeguard in respect of adult suspects and explores police decision making in this context Drawing on empirical research carried out in England the work takes a socio legal approach to examine how and why police custody officers implement or not the appropriate adult safeguard The book's core arguments are addressed within three parts Part I examines how vulnerability is constructed philosophically and practically firstly within the broader literature thereafter at common law and in statute and finally by police custody officers Part 2

discusses how vulnerability is identified and how decisions are made in response to vulnerability Part 3 critically assesses the theoretical understandings of police decision making and criminal justice Here it is argued that current theories on police decision making hold explanatory power yet have significant shortcomings in relation to vulnerability and the appropriate adult safeguard The book thus presents new theoretical insights and on the basis of these insights asserts that the current regime of regulation must be reconsidered while police compliance may only be ensured if vulnerability is radically reconceptualised

Handbook of Children's Rights Martin D. Ruck, Michele Peterson-Badali, Michael

Freeman, 2016-12-08 While the notion of young people as individuals worthy or capable of having rights is of relatively recent origin over the past several decades there has been a substantial increase in both social and political commitment to children's rights as well as a tendency to grant young people some of the rights that were typically accorded only to adults In addition there has been a noticeable shift in orientation from a focus on children's protection and provision to an emphasis on children's participation and self determination With contributions from a wide range of international scholars the Handbook of Children's Rights brings together research theory and practice from diverse perspectives on children's rights This volume constitutes a comprehensive treatment of critical perspectives concerning children's rights in their various forms Its contributions address some of the major scholarly tensions and policy debates comprising the current discourse on children's rights including the best interests of the child evolving capacities of the child states rights versus children's rights rights of children versus parental or family rights children as citizens children's rights versus children's responsibilities and balancing protection and participation In addition to its multidisciplinary focus the handbook includes perspectives from social science domains in which children's rights scholarship has evolved largely independently due to distinct and seemingly competing assumptions and disciplinary approaches e g childhood studies developmental psychology sociology of childhood anthropology and political science The handbook also brings together diverse methodological approaches to the study of children's rights including both quantitative and qualitative perspectives and policy analysis This comprehensive cosmopolitan and timely volume serves as an important reference for both scholarly and policy driven interest in the voices and perspectives of children and youth

Civic Engagement in Food System Governance Alan R. Hunt, 2015-10-05 The

local food movement is one of the most active of current civil engagement social movements This work presents primary evidence from over 900 documents interviews and participant observations and provides the first descriptive history of local food movement national policy achievements in the US from 1976 to 2013 and in the UK from 1991 to 2013 together with reviews of both the American and British local food movements It provides a US UK comparative context significantly updating earlier comparisons of American British and European farm and rural policies The comparative perspective shows that over time more effective strategies for national policy change required social movement building strategies such as collaborative policy coalitions capacity building for smaller organizations and policy entrepreneurship for joining together

separate rural farming food and health interests In contrast narrowly defined single issue campaigns often undermined long term policy change even if short term wins emerged By profiling interviews of American and English movement leaders policymakers and funders the book demonstrates that democratic participation in food policy is best supported when funders incentivize groups to work together and overcome their differences Routledge Handbook of NFT Law Pinar Çağlayan Aksoy,Larry Dimatteo,Saskia Hufnagel,2025-11-04 Non fungible tokens NFTs are types of crypto assets that function on the blockchain Anything that one can digitize has the potential of becoming an NFT While NFTs raise similar issues as other crypto assets there are many use cases and characteristics that are unique and call for special attention At a time when individual countries have started responding to various legal issues this volume examines these matters from a comparative law perspective The book approaches NFTs from a multidisciplinary perspective and provides in depth information about the potential legal problems that arise from their use and transfer The work looks at NFTs from different areas of law to determine the problems and how they can be resolved Divided into seven parts Part I introduces the key elements of NFTs and lays the foundation for the understanding of subsequent chapters Part II focuses on NFTs from the perspective of contract law and discusses if how they conflict with its traditional principles Part III examines issues around intellectual property trademark and patent law Part IV reflects on how NFTs will transform business law Part V deals with complex public law aspects Part VI focuses on data and consumer protection problems that arise when NFTs become mainstream Finally Part VII focuses on how NFTs will change the dispute resolution process and the courts The book will be an essential resource for academics researchers and policymakers working in the areas of technology and law *Action Research in Teaching and Learning* Lin Norton,2018-11-02 Practical and down to earth the second edition of Action Research in Teaching and Learning is an ideal introduction to the subject offering a distinctive blend of the theoretical and the practical grounded firmly in the global higher education landscape Written in an accessible style to build confidence it provides easily adaptable practical frameworks guidelines and advice on research practice within a higher education context The reader is guided through each stage of the action research process from engaging with the critical theory to the practical applications with the ultimate goal of providing a research study which is publishable Supplemented by useful pedagogical research tools and exemplars of both qualitative and quantitative action research studies this new edition features chapters engaging with teaching excellence and analysing qualitative and quantitative research additions to the resources section and a new preface focusing more explicitly on the ever growing number of part time academics Action Research in Teaching and Learning combines a theoretical understanding of the scholarly literature with practical applications and is an essential critical read for any individual teaching or undertaking action research The Routledge Handbook of Environmental Justice Ryan Holifield,Jayajit Chakraborty,Gordon Walker,2017-09-14 The Routledge Handbook of Environmental Justice presents an extensive and cutting edge introduction to the diverse rapidly growing body of research on pressing issues of environmental

justice and injustice With wide ranging discussion of current debates controversies and questions in the history theory and methods of environmental justice research contributed by over 90 leading social scientists natural scientists humanists and scholars from professional disciplines from six continents it is an essential resource both for newcomers to this research and for experienced scholars and practitioners The chapters of this volume examine the roots of environmental justice activism lay out and assess key theories and approaches and consider the many different substantive issues that have been the subject of activism empirical research and policy development throughout the world The Handbook features critical reviews of quantitative qualitative and mixed methodological approaches and explicitly addresses interdisciplinarity transdisciplinarity and engaged research Instead of adopting a narrow regional focus it tackles substantive issues and presents perspectives from political and cultural systems across the world as well as addressing activism for environmental justice at the global scale Its chapters do not simply review the state of the art but also propose new conceptual frameworks and directions for research policy and practice Providing detailed but accessible overviews of the complex varied dimensions of environmental justice and injustice the Handbook is an essential guide and reference not only for researchers engaged with environmental justice but also for undergraduate and graduate teaching and for policymakers and activists **Book Review Index - 2009**

Cumulation Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year

Wealth Jack Knight, Melissa Schwartzberg, 2017-06-02 An in depth political legal and philosophical study into the implications of wealth inequality in modern societies Wealth and specifically its distribution has been a topic of great debate in recent years Calls for justice against corporations implicated in the 2008 financial crash populist rallying against the one percent distrust of the influence of wealthy donors on elections and policy all of these issues have their roots in a larger discussion of how wealth operates in American economic and political life In *Wealth* a distinguished interdisciplinary group of scholars in political science law and philosophy address the complex set of questions that relate to economic wealth and its implications for social and political life in modern societies The volume thus brings together a range of perspectives on wealth inequality capitalism oligarchy and democracy The essays also cover a number of more specific topics including limitarianism US Constitutional history the wealth defense industry slavery and tax policy *Wealth* offers analysis and prescription including original assessment of existing forms of economic wealth and creative policy responses for the negative implications of wealth inequality Economic wealth and its distribution is a pressing issue and this latest installment in the NOMOS series offers new and thought provoking insights *Parliamentary Debates*
