Gumbs,2024-12-23 This book has two heroes the surgeon and the robot The education system and intelligence can create a human who is specialized in surgery While the accurate analysis of data with machine learning AI

can create a more autonomous robot for surgery Currently robots still require human input in the decision making loop whether or not this will always be the case is an issue that still needs to be debated analyzed and studied preferably by computer scientists AND surgeons Surgeons and their patients are increasingly opting for less invasive surgeries However among their many advantages there is an important issue less invasiveness always means limited access to direct information from the operating field 3D image local palpation sensations all information about the whole patient and feedback from the accompanying team during teleoperation To increase precision we are increasingly using surgical robots and mechatronic instruments The less invasive the surgery and the greater the precision of robotic micro instruments the greater the role of artificial intelligence methods especially machine learning which supports the surgeon in making decisions planning and performing the procedure The development of artificial intelligence and further evidence of its effectiveness in various application fields mean that the work of a doctor is changing today In the book we address the issue of AI surgery asking whether this means that an AI surgeon will be created A key question about autonomous surgical robots will come up regularly how far can we go with their autonomy while maintaining safe and effective procedures The book provides useful information on both early successes failures and expectations related to the development of new technologies in surgery It is a guide written by various experts intended for a wide audience from medical development planners through students to doctors and decision makers   *Chilton's I & C S* ,1991   *PC Mag* ,1987-04-14 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology   *Popular Science* ,1989-02 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better   **Popular Science** ,1992-10 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better   **PC** ,1989   *PC Magazine* ,1989   **PC AI.** ,1995   *Generative Video with AI_ Step-by-Step Tips for Creators* Expert, Generative Video with AI_ Step by Step Tips for Creators Unleash professional grade storytelling cinematic visuals and scalable content production with Generative Video with AI Step by Step Tips for Creators the definitive 2025 guide for filmmakers YouTubers marketers educators and digital artists who want to harness the power of AI driven video generation script automation visual synthesis and smart editing workflows Designed for both beginners and advanced creators this guide combines SEO rich keywords bolded techniques and action focused systems to help you create stunning videos faster cheaper and with unlimited creative freedom The AI Video Foundations Section introduces the core mechanics behind modern generative video technology You ll learn how tools like Runway Gen 2 Pika Labs Stability Video Sora style models and Kaiber produce motion sequences using
