

The background of the entire image is a dense, out-of-focus thicket of green grass and reeds. In the center, there is a bright, circular light source, possibly the sun or moon, which is partially obscured by the branches and leaves, creating a soft, ethereal glow. The overall color palette is dominated by various shades of green, from dark forest green to bright, almost white highlights from the light source.

Leland,1897 A Dictionary of Slang, Jargon & Cant Embracing English, American, and Anglo-Indian Slang, Pidgin English, Gypsies' Jargon and Other Irregular Phraseology Albert Barrère,Charles Godfrey Leland,1897 The Gypsies Charles Godfrey Leland,2020-09-28 It is I believe seldom observed that the world is so far from having quitted the romantic or sentimental for the purely scientific that even in science itself whatever is best set forth owes half its charm to something delicately and distantly reflected from the forbidden land of fancy The greatest reasoners and writers on the driest topics are still genial because no man ever yet had true genius who did not feel the inspiration of poetry or mystery or at least of the unusual We are not rid of the marvelous or curious and if we have not yet a science of curiosities it is apparently because it lies for the present distributed about among the other sciences just as in small museums illuminated manuscripts are to be found in happy family union with stuffed birds or minerals and with watches and snuff boxes once the property of their late majesties the Georges Until such a science is formed the new one of ethnology may appropriately serve for it since it of all presents most attraction to him who is politely called the general reader but who should in truth be called the man

who reads the most for mere amusement For Ethnology deals with such delightful material as primeval kumbo cephalic skulls and appears to her votaries arrayed not in silk attire but in strange fragments of leather from ancient Irish graves or in cloth from Lacustrine villages She glitters with the quaint jewelry of the first Italian race whose ghosts if they wail over the find speak in a language man knows no more She charms us with etchings or scratchings of mammoths on mammoth bone and invites us to explore mysterious caves to picnic among megalithic monuments and speculate on pictured Scottish stones In short she engages man to investigate his ancestry a pursuit which presents charms even to the illiterate and asks us to find out facts concerning works of art which have interested everybody in every age Ad interim before the science of curiosities is segregated from that of ethnology I may observe that one of the marvels in the latter is that among all the subdivisions of the human race there are only two which have been apparently from their beginning set apart marked and cosmopolite ever living among others and yet reserved unto themselves These are the Jew and the gypsy From time whereof history hath naught to the contrary the Jew was as he himself holds in simple faith the first man Red Earth Adam was a Jew and the old claim to be a peculiar people has been curiously confirmed by the extraordinary genius and influence of the race and by their boundless wanderings Go where we may we find the Jew has any other wandered so far Yes one For wherever Jew has gone there too we find the gypsy The Jew may be more ancient but even the authentic origin of the Romany is lost in ancient Aryan record and strictly speaking his is a prehistoric caste Among the hundred and fifty wandering tribes of India and Persia some of them Turanian some Aryan and others mixed it is of course difficult to identify the exact origin of the European gypsy One thing we know that from the tenth to the twelfth century and probably much later on India threw out from her northern half a vast multitude of very troublesome indwellers What with Buddhist Brahman and Mohammedan wars invaders outlawing invaded the number of out castes became alarmingly great To these the Jats who according to Captain Burton constituted the main stock of our gypsies contributed perhaps half their entire nation Excommunication among the Indian professors of transcendental benevolence meant social death and inconceivable cruelty Now there are many historical indications that these outcasts before leaving India became gypsies which was the most natural thing in a country where such classes had already existed in very great numbers from early times

Wedeck,Wade Baskin,2023-12-19 This comprehensive reference volume offers in depth information on one of the world s most fascinating and misunderstood cultures Throughout history Gypsies all over the world have been maligned and rejected Outcasts of the countries in which they live these nomads have wandered for years over the face of the earth They have no homeland no political unity no recognition among nations In popular folklore they are vagrants thieves tinkerers and con artists which is to say egregiously misunderstood Until about a century ago these travelers original home had been a matter of dispute Their language had been a source of puzzlement Yet their conduct and their traditions their feeling for music dance and song have all been acclaimed Harry Wedeck s Dictionary

of Gypsy Life and Lore sheds much needed light on the true history and culture of the Gypsies separating fact from fiction while celebrating their folktales rites and customs **Medical Doctor** ,1959 **An American-Romani Vocabulary** Albert Thomas Sinclair,1915 *Travel* ,1923 **Bulletin of the New York Public Library** New York Public Library,1915
