Kierkegaard's Journals and Notebooks, Volume 11, Part 1 Søren Kierkegaard,2019-11-26 For over a century the Danish thinker S ren Kierkegaard 1813 55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history s great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard s journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard s Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced Volume 11 Part 1 and Volume 11 Part 2 present an exciting enlightening and

enormously varied treasure trove of papers that were found carefully sorted and stored by Kierkegaard himself in his apartment after his death. These papers, many of which have never before been published in English, provide a window into many different aspects of Kierkegaard's life and creativity. Volume 11, Part 1 includes items from his earliest formative years through his extensive studies at the university and up to the publication of *Either/Or*. These materials include Kierkegaard's studies in biblical exegesis, his reading of theologians such as Schleiermacher and Baader, his concern with aesthetic matters including a lengthy consideration of the Faust legend, his first trial sermon delivered at the Pastoral Seminary, his views on the burgeoning field of political journalism in the 1830s, and a group of papers he titled *The First Rudiments of Either/Or*. The Green Book: Some Particulars that were not Used. *Catalogue of Printed Books*. British Museum. Department of Printed Books, 1908. *Volume 16, Tome I: Kierkegaard's Literary Figures and Motifs*. Katalin Nun, Jon Stewart, 2016-12-05. While Kierkegaard is perhaps known best as a religious thinker and philosopher, there is an unmistakable literary element in his writings. He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with. This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians, but at the same time it has made their interpretation more complex. Kierkegaard's readers are generally aware of his interest in figures such as Faust or the Wandering Jew, but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions. The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard. The volume is arranged alphabetically by name, with Tome I covering figures and motifs from Agamemnon to Guadalquivir. [Don Quixote Illustrated](#). Cushing Memorial Library & Archives, 2005. This catalogue and the exhibit which it commemorates features 45 books from the Eduardo Urbina Cervantes Project Collection in the Cushing Memorial Library and Archives, Texas A M University. The catalogue and exhibit coincide with *Don Quixote Illustrated: Textual Images and Visual Readings*, a two-day symposium on Cervantes drawing on scholars from around the world and timed to help celebrate the 400th anniversary of the Quixote. The Cervantes collection now contains over 350 editions of or relating to *Don Quixote*. [Kierkegaard's Journals and Notebooks, Volume 2](#). Søren Kierkegaard, 2015-06-22. Søren Kierkegaard (1813-55) published an extraordinary number of works during his lifetime, but he left behind nearly as much unpublished writing, most of which consists of what are called his journals and notebooks. Volume 2 of this 11-volume edition of Kierkegaard's *Journals and Notebooks* includes materials from 1836 to 1846, a period that takes Kierkegaard from his student days to the peak of his activity as an author. In addition to containing hundreds of Kierkegaard's reflections on philosophy, theology, literature, and his own personal life, these journals are the seedbed of many ideas and passages that later surfaced in *Either/Or*, *Repetition*, *Fear and Trembling*, *Philosophical Fragments*, *The Concept of Anxiety*, *Stages on Life's Way*, *Concluding Unscientific Postscript*, and a number of Edifying Discourses. **Catalogue of the Printed Books in the Library of the British Museum**.
