Space Planning Sketchbook for Interior Designers Virginia Smith, 2020-09-29 Space planning is a

vital part of the whole interior design process and without it there won't be a professionally designed interior layout. It is only after conceiving and allocating zones within interior spaces that an interior designer can draw up a blueprint. This final layout will identify each zone, the activities that will characterize it, and the circulation patterns of the people it is designed for. This 129-page space planning drawing workbook and writing journal is great for putting down your interior design concepts on paper. It helps to keep all your projects and tasks in one place. Although it is mainly intended for freehand sketching, there is ample space to write about the objectives behind each design concept. You can also log in measurements, create patterns with grids, and keep track of everything with index pages. **Space Planning Sketchbook for Interior Designers** contains numbered pages, dot grid sections, graph grids sections, isometric grid sections, blank drawing canvas sections. Each section's page has lined sections to write in. Index pages for easy project reference. Measurement log pages. Ample space for drawings and notes. Blank labels that allow you to create page and section titles as you deem fit. The workbook is suitable for both residential and commercial space planning and drawing tasks. It will make great gifts, presents, and stocking stuffers for students of interior design, beginner interior designers, adult design enthusiasts, interior decorators, and veteran designers. Please leave your thoughts with us through a customer review. It helps us aim to strive harder. **Interior Design Drawing** Alan

Hughes, 2013-08-01. Interior design is a multidiscipline profession blending spatial, technical, and aesthetic knowledge. Explore the role of drawing in the design process, understand the main orthographic drawings, use line, tone, and colour across 2D and 3D drawings, add texture and atmosphere to drawings, consider aspects of composition and presentation of a set of drawings, an overview of how drawing relates to the process of interior design.
