58MVP Deluxe 4-Way Multipoise Direct-Vent Variable-Capacity Condensing Gas Furnace

Series 130
Input Capacities: 40,000 thru 120,000 Btu/h

Variable capacity, the ultimate in heating comfort . . .

With the model 58MVP WeatherMaker™ Infinity Furnace, we've taken the ultimate in heating comfort and made it better.

The model 58MVP is available in 6 heat/airflow combinations. The unit has a 4-way multipoise design and can be installed in upflow, downflow, or horizontal positions covering up to 24 different applications.

The WeatherMaker Infinity achieves industry-leading ultra-high efficiency at up to 96.6 percent Annual Fuel Utilization Efficiency (AFUE).

Efficient performance is enhanced through the variable-capacity design. To maintain ideal comfort, the control system of the WeatherMaker Infinity automatically adjusts, maximizing the use of low operating speeds that produce our silent furnace operation while meeting the exact heating needs. This unit is designed to keep the indoor temperature within 1 degree of the thermostat setpoint. Because it operates in low speed most of the time, the model 58MVP uses up to 80% less power than single-capacity furnaces.

In addition to providing optimum comfort, the model 58MVP has a sealed combustion system. This system brings combustion air from outdoors to the furnace and vents flue gases safely outside the home. Because it is sealed, operational noise is minimal. A sealed combustion system also means fewer cold drafts and less air infiltration.

Quality materials are the key behind the model 58MVP's outstanding performance. Carrier stands behind
