Caroline Wozniacki Rory McIlroy:

Slaying the Tiger Shane Ryan, 2016-04-05 NEW YORK TIMES BESTSELLER In *Slaying the Tiger* one of today's boldest young sportswriters spends a season inside the ropes alongside the rising stars who are transforming the game of golf. For more than a decade golf was dominated by one galvanizing figure: Tiger Woods. But as his star has fallen, a new ambitious generation has stepped up to claim the crown. Once the domain of veterans, golf saw a youth revolution in 2014. In *Slaying the Tiger*, Shane Ryan introduces us to the volatile, colorful crop of heirs apparent who are storming the barricades of this traditionally old-fashioned sport. As the golf writer for *Bill Simmons's Grantland*, Shane Ryan is the perfect herald for the sport's new age. In *Slaying the Tiger*, he embeds himself for a season on the PGA Tour where he finds the game far removed from the genteel rhythms of yesteryear. Instead, he discovers a group of mercurial talents driven to greatness by their fear of failure and their relentless perfectionism. From Augusta to Scotland, with an irreverent and energetic voice, Ryan documents every transcendent moment, every press tent tirade, and every controversy that made the 2014 Tour one of the most exciting and unpredictable in recent memory. Here are indelibly drawn profiles of the game's young guns: Rory McIlroy, the Northern Irish ace who stepped forward as the game's next superstar; Patrick Reed, a brash, boastful competitor with a warrior's mentality; Dustin Johnson, the brilliant natural talent whose private habits sabotage his potential; and Jason Day, a resilient Aussie whose hardscrabble beginnings make him the Tour's ultimate longshot. Here also is the bumptious Bubba Watson, a devout Christian known for his unsportsmanlike outbursts on the golf course; Keegan Bradley, a flinty New Englander who plays with a colossal chip on his shoulder; twenty-one-year-old Jordan Spieth, a preternaturally mature Texan carrying the hopes of the golf establishment; and Rickie Fowler, the humble California kid striving to make his golf speak louder than his bright orange clothes. Bound by their talent, each one hungrier than the last, these players will vie over the coming decade for the right to be called the next king of the game. Golf may be slow to change, but in 2014 the wheels were turning at a feverish pace. *Slaying the Tiger* offers a dynamic snapshot of a rapidly evolving sport. Praise for *Slaying the Tiger*: This book is going to be controversial. There is no question about it. It is the most unvarnished view of the tour, the biggest tour in the world that I've ever read. And it's not close. Gary Williams, *Golf Channel*. A must read for PGA Tour fans from the casual to the most dedicated. This book is certain to be as important to this era as John Feinstein's *A Good Walk Spoiled* was two decades ago. A well-researched, in-depth look at the men who inhabit the highest levels of the game. Examiner.com. A masterfully written account of an important time in golf history. Adam Fonseca, *Golf Unfiltered*. Absolutely marvelous. Ryan's writing flows, and his reporting turns pages for you. Kyle Porter, *CBS Sports*. A riveting read. Library Journal. Ryan's fresh look is just what we, golfer readers, want. Curt Sampson, *New York Times*. Bestselling author of *Hogan*, Ryan does a fantastic job painting a thoughtful and accurate portrait of the new crop of heirs apparent. Stephanie Wei Wei, *Under Par*. *Strategic Sport Marketing*. Adam Karg, Daniel Funk, 2020-07-25 Sport now has to compete for the consumer dollar with a vast array of leisure activities online.

as well as offline Successful sport marketing is the result of carefully structured planning creativity and perseverance Integrating the unique characteristics of sport with traditional marketing theory Strategic Sport Marketing presents a framework of strategic decision making The authors outline the diverse markets for sport participants sponsors spectators and fans International case studies and sportviews selected from a wide range of sports and media illustrate the unique features of sport marketing Strategic Sport Marketing is a practical tool and theoretical guide to sport marketing internationally The fourth edition of this widely used text is fully revised and updated It includes new material on sports promotion customer service and social media as well as new case studies A sport marketing text at the undergraduate level needs to engage both student and teacher I believe Strategic Sport Marketing does this rather well Sport Management Review a comprehensive illustration of the integration of sport marketing theory with sport marketing practice Journal of Sport Management

Sensorimotor-Focused EMDR Arthur O'Malley, 2018-12-14 Sensorimotor Focused EMDR combines two hugely influential and effective therapies EMDR therapy and sensorimotor psychotherapy to provide a new approach In doing so the book supports the widely held view of psychotherapists that in trauma the primary store of neurological information is somatic rather than cognitive Many therapists trained in EMDR find that additional resources are needed for patients who present with symptoms of complex trauma and dissociation This is because EMDR is primarily a top down approach based on CBT with the addition of bilateral stimulation BLS in visual tactile and auditory modalities By contrast Sensorimotor Focused EMDR takes a body based and bottom up approach that seeks to resolve trauma by reprocessing information at multiple levels in the gut brain the heart brain and the head brain as well as in the endocrine immune and nervous systems Fully revised since The Art of BART 2015 the book looks at the latest advances in neuroscience including research into the effectiveness of psychotherapy and the mysteries of consciousness and the development of mind It also looks at the role of newly discovered organs the mesentery and the interstitium and provides clear anatomical evidence for the communication of biophotons in energy channels known as the primo vascular system SF EMDR is the only therapy that fully integrates Western theories of affective neuroscience with Eastern observations on activation of chakras pranas and energies and in doing so it offers strong potential for enhanced outcomes and optimized performance for patients
