Advanced Automotive Fault Diagnosis Tom Denton, 2012-09-10 This textbook will help you learn all the skills you need to pass Level 3 and 4 Vehicle Maintenance and Repair courses from City and Guilds IMI and BTEC and is also ideal for higher level ASE AUR and other qualifications

Advanced Automotive Fault Diagnosis covers the fundamentals of vehicle systems and components and explains the latest diagnostic techniques employed in effective vehicle maintenance and repair. Diagnostics or fault finding is an essential part of an automotive technician's work and as automotive systems become increasingly complex there is a greater need for good diagnostics skills. For students new to the subject this book will help to develop these skills but will also assist experienced technicians in further improving their performance and keeping up with recent industry developments. In full colour and including examples of the latest technology this is the guide that no student enrolled on an automotive maintenance and repair course should be without. OBD II Repair Strategies Mandy Concepcion, In the early part of the 21st century we find our lives intertwined with a maze of technological wonders. From cell phones to personal computers no human being today can escape it. Automobiles are no exception to this rule. With the ever-changing emission laws of today the one constant in the automotive industry is that things always change and will continue to do so. OBD II was designed from the beginning to do so as well. Late model vehicle systems are much more demanding in both the amount of technology they possess and in the knowledge necessary to repair them. This work was designed to just that: a step by step diagnostic approach to OBD II systems. It is also written with the State Inspections in mind. This is in direct response to the increasing adoption of OBD II inspections by most States throughout the country. OBD II repair doesn't have to be difficult or cumbersome and knowledge is the key to successful OBD II diagnostics and repair. About the Author: Mandy Concepcion has worked in the automotive field for over 21 years. He holds a Degree in Applied Electronics Engineering as well as an ASE Master L1 certification. For the past 16 years he has been exclusively involved in the diagnosis of all the different electronic systems found in today's vehicles. It is here where he draws extensive practical knowledge from his experience and hopes to convey it in his books. Mandy also designs and builds his own diagnostic equipment, DVD Videos and repair software. Edition 4.0 Table of Contents Copyright 2004-2011 All rights reserved.
