## **Caricom Harmonization Of Labour Law Report:**

*Termination of Employment Digest* International Labour Office, 2000 Topics covered include an overview of legislation on termination of employment the different approaches taken to the subject in various national systems an introductory summary of the legislation on termination      *The Future Regulation of Work* Nicole Busby, Douglas Brodie, Rebecca Zahn, 2016-04-01 Labour law is in crisis Global economic factors and the changing contours of work and workplace relations have led to a reorientation of the social economic political and cultural environment within which labour law has developed This is not a jurisdictional problem but rather is deeply entrenched in transnational development Solutions must recognise and mobilise the transformational shift that has taken place over recent decades Law should be viewed as a force for and a facilitator of change capable of expressing and determining social relations The essays in this book explore the challenges posed by labour law s potential reinvention as a discipline fit for accommodating and investigating such change within a range of different but connected jurisdictional and regulatory concepts and paradigms      *Social Regionalism in the Global Economy* Adelle Blackett, Christian Lévesque, 2010-12-20 Regional trade agreements have expanded exponentially over the past decade and have become a significant if controversial factor in the expanse of economic globalization Social Regionalism in the Global Economy attempts to take a fresh interdisciplinary approach to addressing labour regulation by drawing upon insights from industrial relations comparative capitalism and new governance schools of thought It stands for the proposition that an interdisciplinary study of regional regulation holds the potential to offer a fuller account of social regionalism Its focus is to consider how institutions and labour market actors reconstruct and renegotiate regulatory space in a changing economic environment characterized by regional impulses It argues that there is a dynamic interplay between institutions and actors of social regulation This interplay occurs at many levels The book therefore maps both how actors shape institutions as well as how institutions shape social actors ability to affect regulatory processes The editors bring together leading international specialists willing to move beyond textual analyses of regional agreements to offer alternative accounts of regional integration The work emphasizes that institutional context and social actors at multiple governance levels are integral to the progressive construction and regulation of regional space It further contributes to the literature by combining insights from overlooked regional entities in transition and developing countries with original analyses from the European Union and the NAFTA These aims will be achieved by combining original research that is empirically grounded with theoretically informed analysis      *Offshore Financial Centers and Regulatory Competition* Andrew P. Morriss, 2010-06-16 In *Offshore Financial Centers and Regulatory Competition* a group of leading international law and finance experts argues that offshore jurisdictions have become key players in corporate finance and captive insurance markets      **A Review of the Macro-Economic Policy Environment of the OECS Sub-Region, 1980-1995 ,      A Review of the Macro-economic Policy Environment of the 1980-1995 ,      Comparative Labor Law & Policy Journal , 2002      Industrial Relations**
