and Brands Rajeev Sachdev,2025-10-28 Trademark disputes are a consistent feature of the digital legal landscape appearing
in connection with a range of successive technologies and platforms This book presents a new adapted model for digital
trademarks and trade practices providing recommendations for the Uniform Domain Name Dispute Resolution Policy UDRP
and extending a like process to platform trademark policies and complaint procedures including e commerce marketplace
search advertising social media mobile applications and Metaverse platforms The proposed model addresses and greatly
reduces legal uncertainties and the harm caused by problems for digital trademarks in such key areas as the following use
and place of use of marks bad faith and abuse confusion unfair acts trade practices or competition terms policies and
disclaimers jurisdiction territory and justification The adapted model is informed by pertinent theories and concepts select
aspects of EU and U S and other legal frameworks and existing policies Ultimately a uniform policy is recommended for each
of the five platform types in line with an adapted version of the UDRP based on recommendations through the model It is
applied in a way that provides a comprehensive workable solution fostering legal certainty Actual text for the proposed
adapted UDRP as well as the uniform policies recommended for each type of platform is provided with guidance for
implementation The book provides recommendations that can greatly enhance the resolution of trademark disputes of
various kinds and on various platforms in a more certain cost effective and timely manner Given that the complex global
environment of digital trademarks raises new issues not adequately addressed by legal frameworks this book will be of
