John E. Ettlie,2025-03-31 The first edition of Innovation Renaissance was published just before the onset of Covid 19 begging the question can innovation stand the test of a truly global crisis such as the pandemic The answer as author John E Ettlie finds in this revised and updated second edition is a resounding YES Built around the central narrative of the development of the vaccines to combat hospitalization for Covid 19 and its mutations this second edition of Innovation Renaissance acquires new focus and relevance to the post pandemic world in which we live Starting by defining innovation and the theories that have arisen surrounding it Ettlie considers individual creativity and innovativeness radical innovation new products new services process innovation information technology and artificial intelligence AI There is special emphasis on neglected topics such as the dark side of the innovation process the unintended consequences of new ventures Finally the last chapter of this book summarizes a prescriptive model of the innovation process and attempts to answer the question what causes innovation Through the prism of the pandemic and the imperative quest to find a vaccine this new edition examines and answers this question Now fully revised and updated this informative and unique book is designed as a resource for postgraduate students academics and professionals deeply committed to understanding and working through the innovation process With a focus not just on where innovation has led us to date but also on where it may take us in the future the second edition of Innovation Renaissance will find an audience wherever innovation is taught or practiced      Inform ,1994
