

Organizing and Classifying the Elements

Objectives:

- Explain how elements are organized in a periodic table.
- Identify three broad classes of elements.
- Describe the information in a periodic table.
- Classify elements based on electron configuration.
- Distinguish representative elements and transition metals.

Organizing the Elements

- A few elements, such as gold and copper, have been known for thousands of years - since ancient times
- Yet, only about 13 had been identified by the year 1700.
- As more were discovered, chemists realized they needed a way to organize the elements.
