

### 11-1 Introduction

This chapter is published to acquaint engineers and inspectors with the various forms provided by WSDOT for keeping records of the construction activities and payment for the various phases of the work.

The following pages contain a list of forms to be used in reporting project progress. The sample forms listed in this manual in the past have been eliminated. Copies of the forms are available via three different methods:

- The WSDOT internal Forms website accessible from the internet homepage.
- The WSDOT external website at [www.wsdot.wa.gov/forms](http://www.wsdot.wa.gov/forms).
- By ordering the forms through your WSDOT Regional States personnel.

### 11-2 General Instructions

Forms shown in this chapter are categorized by those persons or offices responsible for completing the forms and alphabetically by form name.

It is recommended that the on-line version be utilized, which should be the most current copy of the form, during the administration of a project.

Unless otherwise noted, the previous version of a revised form may continue to be used until the existing supply is gone. However, if the supply of the older form is not exhausted at the end of six months after the revision date shown below, the supply of old forms should be discarded and the latest version used. The latest version may also be used immediately if desired.

Blank forms should be ordered or downloaded from one of the methods listed in [Section 11-1](#) when supplies run low rather than photocopying an existing form. This will ensure that the latest version of the form is used.

#### **Signatures**

The collection of information in the field has traditionally consisted of text-based documents which were intended to be "hand-signed" by the originator of the document. Now that these forms are available electronically, the question arises as to which forms will require an original hand-written signature and which will be acceptable with computer generated or printed signatures.

The electronic forms listed in this chapter are further categorized into those forms requiring an original signature and which are acceptable with computer generated or printed signatures. Project Office personnel will need to review the forms to familiarize themselves with the signature requirement of each form. All computer generated forms are acceptable as a hard copy with a "handwritten" signature.
