**The SimCalc Vision and Contributions** Stephen J. Hegedus, Jeremy Roschelle, 2012-12-16 This volume provides essential guidance for transforming mathematics learning in schools through the use of innovative technology pedagogy and curriculum. It presents clear rigorous evidence of the impact technology can have in improving students learning of important yet complex mathematical concepts and goes beyond a focus on technology alone to clearly explain how teacher professional development pedagogy curriculum and student participation and identity each play an essential role in transforming mathematics classrooms with technology. Further evidence of effectiveness is complemented by insightful case studies of how key factors lead to enhancing learning including the contributions of design research classroom discourse and meaningful assessment. The volume organizes over 15 years of sustained research by multiple investigators in different states and countries who together developed an approach called SimCalc that radically transforms how Algebra and Calculus are taught. The SimCalc program engages students around simulated motions such as races on a soccer field and builds understanding using visual representations such as graphs and familiar representations such as stories to help students to develop meaning for more abstract mathematical symbols. Further the SimCalc program leverages classroom wireless networks to increase participation by all students in doing talking about and reflecting on mathematics. Unlike many technology programs SimCalc research shows the benefits of balanced attention to curriculum pedagogy teacher professional development assessment and technology and has proven effectiveness results at the scale of hundreds of schools and classrooms. Combining the findings of multiple investigators in one accessible volume reveals the depth and breadth of the research program and engages readers interested in Engaging students in deeply learning the important concepts in mathematics Designing innovative curriculum software and professional development Effective uses of technology to improve mathematics education Creating integrated systems of teaching that transform mathematics classrooms Scaling up new pedagogies to hundreds of schools and classrooms Conducting research that really matters for the future of mathematics learning. *Where Teachers Thrive* Susan Moore Johnson, 2020-07-29 2020 PROSE Award Winner Education Theory Category 2019 Outstanding Academic Title Choice In *Where Teachers Thrive* Susan Moore Johnson outlines a powerful argument about the importance of the school as an organization in nurturing high quality teaching. Based on case studies conducted in fourteen high poverty urban schools the book examines why some schools failed to make progress while others achieved remarkable results. It explores the challenges that administrators and teachers faced and describes what worked what didn't work and why. Johnson draws on vivid portraits of schools to highlight an array of

school based systems and practices that support teachers professional growth and effectiveness These include a rich and interactive hiring process team based curriculum planning and assessment and informative feedback and ongoing professional learning Critical to all of these is the role of the principal as an essential agent in a school s success Although these elements may vary from school to school Johnson argues that together these systems provide a comprehensive mutually reinforcing set of well orchestrated strategies that can help schools deliver results that exceed the sum of teachers individual efforts Since 2000 policy makers and education officials have diligently sought to improve schools by improving the quality of individual teachers However even if those teachers are skilled and committed the schools where they work are all too often disjointed dysfunctional organizations that serve no one well Where Teachers Thrive explains clearly how educators within a school can join together to adopt systems of practice that ensure growth and success by all teachers and their students

Educational Entrepreneurship Today Frederick M. Hess, Michael Q. McShane, 2021-03-04 In *Educational Entrepreneurship Today* Frederick M. Hess and Michael Q.
