years of high school will be impacted because they will not have had the writing exposure While the CCSS are already being implemented no established curriculum has yet to be published for teachers to use Therefore the purpose of this project was to develop and pilot test a curriculum unit tailored specifically to meet the needs of students with learning disabilities and to promote their success in argumentative writing With this curriculum teachers can teach multiple lessons over a period of time to their students regarding effective argumentative writing Students can develop and learn to use valid reasoning to support their claim as well as to provide relevant and sufficient evidence The curriculum unit begins with an introduction and instructions on how to write a measurable IEP goal aligned with the relevant CCSS and guidelines for the implementation of explicit direct instruction UDL scaffolding and other evidence based organizational strategies to teach students with learning disabilities Next nine unit lessons plans offer strategies and materials to walk students through the step by step process of writing an argumentative essay Manipulatives such as a foldable or graphic organizer and collaboration with peers are suggested to foster and strengthen writing skills The curriculum unit was implemented twice with nineteen high school freshmen with learning disabilities using two separate writing prompts over a four month period Throughout the implementation of the lessons growth was measured using a four point rubric and the majority of students demonstrated progress toward meeting the CCSS standards for argumentative writing
