Challenges Faced By Physically Challenged Students In South Africa:

Challenges Faced by Physically Challenged Students in South Africa Michael Mbongiseni Buthelezi, 2014-11-12

Physically challenged students need assistance in all aspects. They should also be treated as normal human beings in society but given the respect and dignity due to their special needs. We live in a society that does not conform to the needs of these students and as a result they feel inferior and isolated. Physically challenge should not be seen as a disease but as a human being with special needs. Why it is important to assist physically challenged students Students with Disabilities and the Transition to Work Oliver Mutanga, 2019-07-01. This book sets out to understand how students with disabilities experience higher education and the transition to the workplace. It foregrounds the voices of students and graduates in order to explore identity, inclusion, participation and success of youth with disabilities in higher education as well as their transition from university to employment. The author proposes a new understanding of disability considered in terms of a continuum of abilities, balancing empirical data, theory and policy analysis with specific regard to the interests of youth with disabilities, making a unique contribution to discussions on access, inclusion and success in higher education and employment. These discussions inform social development and educational policy planning and implementation not only in South Africa but also in countries with a similar context, particularly in terms of remedial courses of action that bring social justice to people with disabilities. Students with Disabilities and the Transition to Work will be of interest to all scholars and students working in the fields of disability studies, particularly those with a focus on critical disability studies and disability in the global south as well as those working in higher education, sociology, development studies and social policy. **The Challenge of Change in Africa's Higher Education in the 21st Century** Kenneth Kaoma Mwenda, Gerry Nkombo Muuka, 2009.
