

## Chapter 11 (Intelligence) Study Guide

### Objective 1: What Is Intelligence?

#### Definitions:

- Intelligence – mental quality consisting of the ability to learn from experience, solve problems, and use knowledge to adapt to new situations.

#### Concepts:

- What is the difficulty in defining intelligence and explain what it means to reify intelligence. – Intelligence is not a single ability; it is a concept. IQ scores lead people to believe they are at a concrete level of intelligence when in fact the IQ scores is merely a measure of how one performed on a particular test. Intelligence is a description of what allows an individual to be successful within a culture.

#### Example:

- Saying that “She has an IQ of 120” as if that is a descriptor of her total ability.

#### Sample test question:

- Which of the following is not a description of intelligence:
  - A. Ability to learn from experience.
  - B. An IQ score
  - C. Problem solving
  - D. Use of knowledge to adapt to new situations.

### Objective 2: General Intelligence

#### Definitions:

- Factor analysis – a statistical procedure that identifies clusters of related items (called factors) on a test; used to identify different dimensions of performance that underlies one’s total score.
- General intelligence (g) – a general intelligence factor that according to Spearman and others underlies specific mental ability and is therefore measured by every task on an intelligence test.

#### Concepts:

- Is intelligence one general ability or several specific abilities? –
  - Tested by factor analysis, Spearman believed that “g” underlies various clusters; those who tend to score high in one area likely will score high in others.
  - Thurston did not rank his subjects on a single scale but measured several clusters of abilities such as word fluency, verbal comprehension, spatial ability, perceptual speed, numerical ability, inductive reasoning, and memory. However again individuals who scored well in one domain also tended to score well in others.

# Chapter 11 Intelligence Study Guide Answers Myers

**Anne Myers, Christine H. Hansen**

## Chapter 11 Intelligence Study Guide Answers Myers:

**Study Guide for Psychology** David G. Myers, Richard O. Straub, 2006-04-07 This eighth edition of David G Myers Psychology includes expanded coverage of the most recent developments in this wide ranging field This text includes self tests and critical thinking exercises based on the concepts discussed in the eighth edition **Study Guide for Psychology, Seventh Edition** Richard O. Straub, David G. Myers, 2003-06-20 This new edition continues the story of psychology with added research and enhanced content from the most dynamic areas of the field cognition gender and diversity studies neuroscience and more while at the same time using the most effective teaching approaches and learning tools *Psychology: First Canadian Edition Study Guide* Richard O. Straub, 2006-09-15 Following the text s content Richard Straub offers a Chapter Overview and Chapter Review which is divided by major section Each group of fill in the blank and short answer questions is preceded by the relevant objective from the text The Study Guide also includes three self tests one of which encourages students to think critically about the chapter s concepts answers with page references for the self tests and explanations of why a choice is correct or incorrect and a Focus on Language and Vocabulary section which explains idioms and other phrases used by David Myers in the text that may not be clear to some readers **Christian Scholar's Review** ,2006
