

## Chapter 11 Nervous System

Which division of the nervous system contains the brain and spinal cord?

**Central nervous system and Peripheral nervous system**

Which division of the nervous system contains all of the nervous tissue outside of the CNS?

**Peripheral Nervous system**

Subdivisions of the PNS

1. **Sensory receptors**
2. **Special sensory organs**

The main purpose of the sensory division is to receive information from **sensory division** and relay it to **Central Nervous System**.

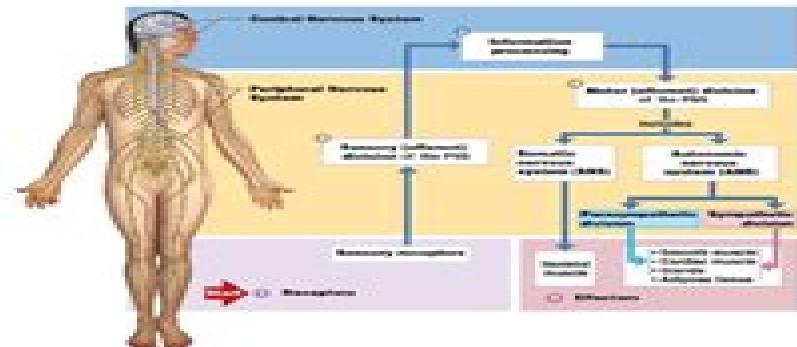

The main purpose of the motor division is to carry commands from **Central Nervous System** and relay it to **motor division**.

The motor division is further divided into two subdivisions:

1. **Somatic nervous system** - the voluntary nervous system, such as skeletal muscle control and conscious movement
2. **Autonomic nervous system** - the involuntary nervous system, such as smooth muscle, cardiac muscle, etc.

List the Five steps shown in this model in your own words to help increase comprehension:

1. **Receptors detect changes in internal or external environment**
2. **Information is sent to the CNS by the sensory division of the PNS**
3. **Information processing (integration and distribution of information) occurs in the CNS**
4. **Motor commands are carried by the motor division of the PNS**
5. **Effectors respond to those commands and change their activities**

What are the three general regions of a neuron and their general function?

1. **Dendrites- receive stimuli from environment**

*Medical Terminology Express* Barbara A Gyls, Regina M Masters, 2014-11-24 Now in its 2nd edition *Medical Terminology Express* adapts Barbara Gyls's proven word building techniques for the short course. Organized by body system, this text shows the connection between anatomical structures and associated medical word roots. **Building a Medical Vocabulary** Peggy C. Leonard, 2015 The language of medicine may be complex but learning it doesn't have to be. Using short, easy-to-understand segments followed immediately by programmed exercises, *Building a Medical Vocabulary With Spanish Translations* 9th Edition starts with medical terms that you may already know and builds your knowledge by adding new combining forms, prefixes, and suffixes. An Evolve companion website reinforces your understanding with interactive games, animations, audio pronunciations, and more. Organizing medical terms by body system, this text provides the building blocks for effective communication in the health care environment. Easy-to-understand conversational writing style makes reading and absorbing the material enjoyable. Programmed Learning sections allow you to actively participate in learning and get instant feedback on your progress. An Evolve companion website reinforces learning with audio pronunciations, interactive games, exercises, animations, flash cards, and more. Thorough explanation of terms enhances understanding by presenting vocabulary in the context of medical settings. Moderate level of A/P coverage provides the background that you need to understand body systems in the context of medical terminology. Health Care Reports and case studies allow you to apply your knowledge to job-like situations. Spanish translations cover common Spanish terminology that you are likely to encounter in the clinical environment. Be Careful with These caution boxes highlight important distinctions between terms that are similar in spelling and/or pronunciation. Comprehensive end-of-chapter reviews allow you to measure your learning against chapter objectives. The Joint Commission official Do Not Use list of error-prone abbreviations alerts you to abbreviations that should not be used in the clinical setting. Bookmark pronunciation guide makes it easy to find pronunciations and may also be used to cover the answer column while working the programmed learning sections of the text. Glossary Index makes it easy to find words and their definitions and is great for final exam review.
