1: F	4: F	7: F	10: T
2: T	5: T	8: F	11: T
3: T	6: F	9: T	12: T

My answers to this self test did not surprise me. When I think of my leadership style, I know I have the capabilities needed but I lack the confidence. For question 1 as example, I think that I am not popular among group members because I have self image issues and don't put myself out there as much as I should. I tend to keep to myself and therefore am not very popular. This is similar to why I do not believe I'm good at establishing group goals. Because I stick to myself, it is hard for me to speak up and give my ideas to the group. However, I do know that I am good at being knowledgeable about the topics being discussed and I am good at delegating tasks when told to do so. I just have problems getting the initiative and guts to do it myself.

In order to gain the skills and competencies needed to improve my leadership skills, I think it would be helpful to have the chance to lead a group of individuals similar to me who also have some form of social anxiety. I would feel less pressure to be perfect and to be talkative because the other group members would understand how I'm feeling. If I gained the confidence, I do believe I could be charismatic as talked about in question 7. I also believe I could empower and motivate group members more as talked about in question 8.
