Vardell, 2019-06-14 This practitioner oriented introduction to literature for children ages 5-12 covers the latest trends, titles and tools for choosing the best books and materials as well as for planning fun and effective programs and activities. The third edition of *Children's Literature in Action* provides an activity oriented survey of children's literature for undergraduate and graduate students seeking licensure and degrees that will lead to careers working with children in schools and public libraries. Author Sylvia M. Vardell draws on her 30 years of university teaching and extensive familiarity with the major textbooks in the area of children's literature to deliver something different: a book that focuses specifically on the perspective and needs of the librarian with emphasis on practical action and library applications. Its contents address seven major genres: picture books, traditional tales, poetry, contemporary realistic fiction, historical fiction, fantasy, and informational books. Each chapter includes practical applications for the educator who shares books with children and who develops literature based instruction. Chapters are enriched by author comments, collaborative activities, featured books, special topics, and activities including selected awards and celebrations, historical connections, recommended resources, issues for discussion, and assignment suggestions. This new edition incorporates the 2018 AASL National School Library Standards.

*Teaching Multilingual Students Through Culture and Language* Tala Michelle Karkar-Esperat, 2025-12-08 This book serves as a professional development guide designed for elementary school teachers to help them center multilingual and bilingual students' language and culture in the classroom by recognizing and harnessing their students' assets through semiotics and self-discovery. Its purpose is to promote compassionate education, fostering empathy and connection to students' identities in response to the known problem of student disengagement and the challenges in teaching reading and writing. The guide showcases planned and tested modules to facilitate student success in diverse learning environments, and each module includes resources, sample lesson plans, and hands-on experiences designed to help students find joy in learning. Emphasizing strategies intended for learners with varied abilities and interests, this book focuses on students' identities and cultures as they are related to race, language, heritage, and semiotics. It is an ideal resource for in-service elementary school teachers interested in incorporating culturally responsive teaching practices into their classrooms, as well as for preservice teachers who want to focus on students' cultures, languages, and assets. Teachers, students, and the student community share the joy of knowledge together through this guide.
