Purpose of this tool

This tool provides guidance on running an effective focus group discussion (FGD), including organization, roles, and responsibilities, as well as questions to ask to help you plan, monitor, and evaluate community engagement approaches.

What is a focus group discussion?

A Focus Group Discussion (FGD) is a method for collecting qualitative data that gathers community members together to discuss a specific topic. Questions are open-ended, with the aim of stimulating an informal discussion and investigating people's views in more detail than is possible through a survey. An FGD usually lasts for 60-90 minutes and includes between 6 to 12 participants. If possible, hold separate FGD's with men, women, boys, and girls, and other at risk or marginalized groups and always conduct FGDs in the language the community are most comfortable expressing themselves in.

How can focus group discussions support community engagement and accountability?

An FGD can be used during assessments, planning, monitoring and evaluation:
