associations streamed into Sichuan to offer help The Politics of Compassion examines how civically engaged citizens acted on the ground how they understood the meaning of their actions and how the political climate shaped their actions and understandings Using extensive data from interviews observations and textual materials Bin Xu shows that the large scale civic engagement was not just a natural outpouring of compassion but also a complex social process both enabled and constrained by the authoritarian political context While volunteers expressed their sympathy toward the affected people suffering many avoided explicitly talking about the causes of the suffering particularly in the case of the collapse of thousands of schools Xu shows that this silence and apathy is explained by a general inability to discuss politically sensitive issues while living in a repressive state This book is a powerful account of how the widespread death and suffering caused by the earthquake illuminates the moral political dilemma faced by Chinese citizens and provides a window into the world of civic engagement in contemporary China **Manufacturers Record** ,1925 Congressional Record United States.

**Imperial Justice** Bonny Ibhawoh,2013-10-03 Imperial Justice explores the imperial control of judicial governance and the adjudication of colonial difference in British Africa Focusing on the Judicial Committee of the Privy Council and the colonial regional Appeal Courts for West Africa and East Africa it examines how judicial discourses of native difference and imperial universalism in local disputes influenced practices of power in colonial settings and shaped an evolving jurisprudence of Empire Arguing that the Imperial Appeal Courts were key sites where colonial legal modernity was fashioned the book examines the tensions that permeated the colonial legal system such as the difficulty of upholding basic standards of British justice while at the same time allowing for local customary divergence which was thought essential to achieving that justice The modernizing mission of British justice could only truly be achieved through recognition of local exceptionality and difference Natives who appealed to the Courts of Empire were entitled to the same standards of justice as their civilized colonists yet the boundaries of racial ethnic and cultural difference somehow had to be recognized and

maintained in the adjudicatory process Meeting these divergent goals required flexibility in colonial law making as well as in the administration of justice In the paradox of integration and differentiation imperial power and local cultures were not always in conflict but were sometimes complementary and mutually reinforcing The book draws attention not only to the role of Imperial Appeal Courts in the colonies but also to the reciprocal place of colonized peoples in shaping the processes and outcomes of imperial justice A valuable addition to British colonial literature this book places Africa in a central role and examines the role of the African colonies in the shaping of British Imperial jurisprudence The Furniture Journal ,1918
