

WWI - Changes on the Home Front

Mobilizing for War:

I. Draft – Troops:

- Gen. John “Black Jack” Pershing

Americans wanted to fight as a unit and not under any ally. Therefore once in the field they looked to general John Black Jack Pershing.

II. Wartime Production:

- Affect on Industries and Agriculture
wartime is often a good thing for the economy and therefore everyone had to speed up production to equal the need for fuel, ships, weapons, and food.
- Affect on Workers
 - The Great Migration
Since men in the U.S were sent to fight in the war a whole lot of jobs opened up. We see a large migration of african american people move to cities in the north to get those open jobs.
 - Women
This war gave women the opportunity to get into positions they were previously denied. This brought over 1 million women hired.
- Other Production Changes
 - Victory Gardens
These were gardens grown by homeowners in an effort to free up resources for the war.
 - Prohibition – 18th Amendment
Americans were encouraged to stop spending money on alcohol and save it to contribute to the war and this was a major temperance campaign.
 - Daylight Savings Time
This was first implemented during the war. It wasn't invented then it was actually invented by Benjamin Franklin but wasn't utilized until America faced the need for it to increase war production.
 - War Bonds
These were an initiative by the government to fund military operations and spending by issuing debt for the public to purchase.

Carmichael,2018-11-02 How did Civil War soldiers endure the brutal and unpredictable existence of army life during the conflict This question is at the heart of Peter S Carmichael s sweeping new study of men at war Based on close examination of the letters and records left behind by individual soldiers from both the North and the South Carmichael explores the totality of the Civil War experience the marching the fighting the boredom the idealism the exhaustion the punishments and the frustrations of being away from families who often faced their own dire circumstances Carmichael focuses not on what soldiers thought but rather how they thought In doing so he reveals how to the shock of most men well established notions of duty or disobedience morality or immorality loyalty or disloyalty and bravery or cowardice were blurred by war Digging deeply into his soldiers writing Carmichael resists the idea that there was a common soldier but looks into their own words to find common threads in soldiers experiences and ways of understanding what was happening around them In the end he argues that a pragmatic philosophy of soldiering emerged guiding members of the rank and file as they struggled to live with the contradictory elements of their violent and volatile world Soldiering in the Civil War as Carmichael argues was never a state of being but a process of becoming *Journal of the House of Representatives of the United States* United States.
