**Against the Friars** Tim Rayborn, 2014-10-23 The friars represented a remarkable innovation in medieval religious life Founded in the early 13th century the Franciscans and Dominicans seemed a perfect solution to the Church's troubles in confronting rapid changes in society They attracted enthusiastic support especially from the papacy to which they answered directly In their first 200 years membership grew at an astonishing rate and they became counsellors to princes and kings receiving an endless stream of donations and gifts Yet there were those who believed the adulation was misguided or even dangerous and who saw in the friars' actions only hypocrisy deceit greed and even signs of the end of the world From the mid 13th century writings appeared denouncing and mocking the friars and calling for their abolition Their French and English opponents were among the most vocal From harsh theological criticism and outrage at the Inquisition to vulgar tales and bathroom humor this thoroughly documented work is suitable for the newcomer as well as for readers who are familiar with the subject but might like to investigate specific topics in more detail      *Vision and Certitude in the Age of Ockham* Katherine Tachau, 2022-07-11 When William of Ockham lectured on Lombard's Sentences in 1317-1319 he articulated a new theory of knowledge Its reception by fourteenth century scholars was however largely negative for it conflicted with technical accounts of vision and with their interpretations of Duns Scotus This study begins with Roger Bacon a major source for later scholastics efforts to tie a complex of semantic and optical explanations together into an account of concept formation truth and the acquisition of certitude After considering the challenges of Peter Olivi and Henry of Ghent Part I concludes with a discussion of Scotus's epistemology Part II explores the alternative theories of Peter Aureol and William of Ockham Part III traces the impact of Scotus and then of Aureol on Oxford thought in the years of Ockham's early audience culminating with the views of Adam Wodeham Part IV concerns Aureol's intellectual legacy at Paris the introduction of Wodeham's thought there and Autrecourt's controversies      The American Catholic Quarterly Review ..., 1883
