

## Chapter 1

# The Cold War Era

### OVERVIEW

This chapter provides a backdrop to the entire book. The end of the Cold War is usually seen as the beginning of the contemporary era in world politics which is the subject matter of this book. It is, therefore, appropriate that we begin the story with a discussion of the Cold War. The chapter shows how the dominance of two superpowers, the United States of America and the Soviet Union, was central to the Cold War. It tracks the various arenas of the Cold War in different parts of the world. The chapter views the Non-Aligned Movement (NAM) as a challenge to the dominance of the two superpowers and describes the attempts by the non-aligned countries to establish a New International Economic Order (NIEO) as a means of attaining economic development and political independence. It concludes with an assessment of India's role in NAM and asks how successful the policy of non-alignment has been in protecting India's interests.

The end of the Second World War led to the rise of two major centres of power. The two pictures above symbolise the victory of the US and the USSR in the Second World War.

*Fifteen Years of Fear* Jared D. Williams, 2018-11-30 The era immediately following World War

It is usually remembered as an idyllic period in the United States of America. Most people look back at that time as an era of malt shops, school dances, and innocence. In reality, the fifteen years following WWII were some of the most dangerous the nation ever faced. Lurking in the minds of all Americans was the constant fear of a surprise attack from the Soviet Union. War with the communist nations of the world appeared to be imminent. At this time, a new class of leaders emerged to guide the United States. The Cold War struggle brought out the best in some and the worst in others. Men like Truman, MacArthur, Eisenhower, Nixon, McCarthy, and Kennedy dominated the headlines and the political landscape. This is the story of the opening chapter of the American Cold War story and the men who piloted the ship of state during that most dangerous of times.

*A History of the World* Hugh Thomas, 1979. The brilliant historian whose earlier works *The Spanish Civil War* and *Cuba*. *The Pursuit of Freedom* met with acclaim, now focuses his attention on world history from the origins of man to today's world.

**The Cold War** John Ziff, 2015. During the Second World War, the United States and the Soviet Union had worked together to defeat Nazi Germany. But in the years after the war ended, the former allies became bitter rivals. The two superpowers did not fight each other directly; instead, they tried to get other countries to support their political and economic systems. The Soviet Union supported the establishment of Communist governments that would answer to Soviet leaders. The United States spent billions of dollars to rebuild Western Europe and sent military advisers and troops to many places in order to counter the threat of Communist expansion. The period of U.S.-Soviet tensions from 1947 until the fall of the Soviet Union in 1991 is known as the Cold War. This book in the MAJOR U.S. HISTORICAL WARS series examines the events that led up to the Cold War. It discusses the political and military strategies that the world's two superpowers, the United States and the Soviet Union, employed and provides information about key people, battles, and events. The policies of the Cold War had an enormous impact on the modern world. Each title in this series contains color photos, maps, chronology, and back matter including an index, further reading lists for books and internet resources, and a series glossary.
