

## The Biosphere Vocabulary Study Guide

| Term                        | Definition                                                                                                                                                  |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Ecology</b>              | Scientific study of interactions among organisms and between organisms and their environment (63)                                                           |
| <b>Biosphere</b>            | Part of Earth in which life exists including land, water, and air or atmosphere (21, 64)                                                                    |
| <b>Population</b>           | Group of individuals of the same species that live in the same area (64)                                                                                    |
| <b>Community</b>            | Assemblage of different populations that live together in a defined area (64)                                                                               |
| <b>Ecosystem</b>            | All the organisms that live in a place, together with their nonliving environment (65)                                                                      |
| <b>Biome</b>                | A group of ecosystems that share similar climates and typical organisms (65)                                                                                |
| <b>Biotic Factor</b>        | Any living part of the environment with which an organism might interact (66)                                                                               |
| <b>Abiotic Factor</b>       | Physical, or nonliving, factor that shapes an ecosystem (66)                                                                                                |
| <b>Autotroph (Producer)</b> | Organism that is able to capture energy from sunlight or chemicals and use it to produce its own food from inorganic compounds; also called a producer (69) |
