continues to offer a flexible combination of instructional chapters and readings that reflect the variety of emphases in today's technical writing classroom. The instructional chapters offer a comprehensive presentation of technical communication while articles from professional journals which constitute about one third of the text offer insight and advice on specific communication topics. These readings also introduce students to important subjects related to technical writing not usually addressed in introductory texts. Each concise and self-contained instructional unit includes extended models and exercises which can be used in class or for collaborative or homework assignments. Students who study technical writing as part of their career preparation in science, business, engineering, social services, and technical fields will find this text particularly useful.

The Technique of Curriculum Making Henry Harap, 1928 **Federal Register**, 1982-10-19 The American Journal of Psychology Granville Stanley Hall, Edward Bradford Titchener, Karl M. Dallenbach, Madison Bentley, Edwin Garrigues Boring, Margaret Floy Washburn, 1981 *The Legislature as an Organization* Marvin Andrew Harder, Raymond G. Davis, 1979. An innovative approach to legislative study; this volume views the Kansas legislature from the perspective of organization theory. Authors Marvin A. Harder and Raymond G. Davis examine the technical and procedural aspects of the legislature that most scholars have overlooked. They provide a careful, precise theoretical study of the organization and structure, administrative and staff relationships, and formal processes of the legislature. Applying the concepts of organization theory, Harder and Davis describe and analyze how the Kansas legislature works. They cover the legislative staff, the networks of communication and socialization, the role of leadership, the committees, and the legislative functions of lawmaking and of overseeing. They also discuss recent changes in the legislature and give a profile of the legislators. This book breaks new ground by focusing on organization theory rather than political analysis to explain the dynamics of legislative operations. Of particular value to Kansas legislators and students of the Kansas legislative process, it will also contribute to the general literature about American legislative institutions.
