### Standards Focus: Foreshadowing

In order to build suspense and make a story more interesting, writers often use techniques such as **foreshadowing**, or hints and clues of events to occur later in the plot. When authors give these hints and clues, we can make a **prediction**, or an educated guess, as to what will happen next.

Often, we do not even realize that an author has used foreshadowing until we have finished reading the entire book and look back on what we have read. However, if you are told that certain instances, events, or symbols are foreshadowing events to come, then you can make predictions about what you think may happen in the future.

Directions: Below are several examples of foreshadowing from Chapters 9-11. Read the selection and then predict what you think will happen later in the story based upon the selection. Please note: there are no real "wrong" answers. Be sure to address all parts of the quote. An example has been done for you.

Ex. "Atticus sighed. I'm simply defending a Negro—his name's Tom Robinson. He lives in that little settlement beyond the town dump. He's a member of Calpurnia's church, and Cal knows his family well. She says they're clean-living folks. Scout, you aren't old enough to understand some things yet, but there's been some high talk around town to the effect that I shouldn't do much about defending this man. It's a peculiar case..."

My prediction: Atticus will be defending an African-American man, Tom Robinson, who is a good man, but lives in the "bad" area of town. The people of Maycomb believe that Atticus shouldn't defend Tom. My prediction is that the people of Maycomb will turn against Atticus when he defends Tom, and that Atticus will be treated just as badly as the African-Americans in this prejudiced town.

1. "Our father didn't do anything. He worked in an office, not in a drugstore. Atticus did not drive a dump-truck, he was not the sheriff, he did not farm, work in a garage, or do anything that could possibly arouse the admiration of anyone."

My prediction: Scout believes that because Atticus does not do the generic things that every other father in Maycomb does, that he is unimpressive. She thinks that because he is not the "talk of the town" in a good way, that everyone believes he is boring and old, but the fact of the matter is that he is highly respected by the people in the town for his high education and proper etiquette.

2. "When he gave us our air rifles, Atticus wouldn't teach us to shoot. Uncle Jack instructed us in the rudiments thereof; he said Atticus wasn't interested in guns. Atticus said to Jem one day, 'I'd rather you shot at tin cans in the back yard, but I know you'll go after birds. Shoot all the bluejays you want, if you can hit 'em, but remember it's a sin to kill a mockingbird.'"

My prediction: Atticus believes that there is no need for guns. He tells Jem that he would rather him shoot at tin cans, because he doesn't like that they will go after birds and take an innocent life from something so sweet and benign. He claims that it is a sin to kill a mockingbird because they bring nothing but joy to the people that they surround.

3. "Mr. Finch, this is a one-shot job. Atticus shook his head vehemently: 'Don't just stand there. Heck! He won't wait all day for you.' 'For God's sake, Mr. Finch, look where he is! Miss and you'll go straight into the Radley house! I can't shoot that well and you know it!'

Boda, 2009-06-30 The biblical theological approach Boda takes in this work is canonical thematic tracing the presentation of the theology of sin and its remedy in the canonical form and shape of the Old Testament The hermeneutical foundations for this enterprise have been laid by others in

past decades especially by Brevard Childs in his groundbreaking work *But A Severe Mercy* also reflects recent approaches to integrating biblical understanding with other methodologies in addition to Childs's. Thus it enters the imaginative space of the ancient canon of the Old Testament in order to highlight the word views and literary shapes of the texts taken individually and as a whole collection. For the literary shape of the individual texts it places the word views of the dominant expressions and images as well as various passages in the larger context of the biblical books in which they are found. For the literary shape of the texts as a collection it identifies key subthemes and traces their development through the Old Testament canon. The breadth of Boda's study is both challenging and courageous resulting in the first comprehensive examination of the topic in the 21st century.
