

# Definition of Dialectical Journal

---

The term "Dialectic" means "the art or practice of arriving at the truth by using conversation involving question and answer." Think of your dialectical journal as a series of conversations with texts that you read. The process is meant to help you develop a better understanding of the texts we read and to utilize higher level thinking skills. You will find that it is a useful way to process what you're reading, prepare yourself for group discussion, and gather textual evidence for your Literary Analysis assignments.
