Over the last two decades Psychology research has experienced an enormous growth in Brazil which has placed the country among the ten nations with the highest scientific output in the area. A big part of this output however remains inaccessible to the majority of the international community because it is mainly published in Portuguese. This book intends to overcome this barrier presenting a highly relevant sample of the best Psychology research produced in Brazil to those who are unable to read in Portuguese. In each chapter a top Brazilian researcher is invited to present a summary of his/her main contributions to the field. The result is a rich overview of the main areas in which Brazilian psychologists have concentrated their work over the last decades such as Developmental Psychology, Community Psychology, Educational and School Psychology, Evolutionary Psychology, Health Psychology, History of Psychology and Social Psychology.
