The Practice of Intergroup Dialogue Across Educational Settings Kristin J. McCowan, 2021 Consciousness raising educational efforts that help learners critically examine the sociopolitical structures that create and sustain discrimination and disadvantage Larson 2014 are needed Friere 1979 suggests that the most promising approaches to educating for critical consciousness reflect three interconnected components an in depth understanding of the world reflection on social and political contradictions and taking action against oppressive elements in one s own life Friere 1979 Intergroup Dialogue IGD is one evidence based approach that uses critical pedagogy and experiential learning to help students develop a structural analysis of how power and privilege are related to various types of inequalities Gurin Nagda Lopez Maxwell Nagda Schoem Zuniga et al 2007 While the majority of research on IGD tends to examine outcomes less is known about how students experience and navigate the cognitive and affective processes that facilitate the aforementioned outcomes This dissertation seeks to understand the ways in which IGD fostered critical consciousness among students Across these three studies IGD served as a promising approach that enabled high school and undergraduate students to increase their understanding of the world around them to engage in critical self reflection and the findings across these studies also demonstrated students ability to take action to incorporate their new learnings into their everyday lives Although the experiential nature of the course proved challenging at times the vast majority of students reported that the dialogic challenges supported their ability to apply critical dialogue skills across both contexts Analyses also revealed that IGD was instrumental in the development of students listening skills In particular analyses revealed that students may have developed a more integrated form of listening or conscious listening which involves the integration of multiple senses e g eyes heart mind ears that promoted their ability to awareness across all three domains context content and intrapersonal Analyses from the high school study revealed that IGD supported students sociopolitical development While there is not sufficient evidence to suggest that a school wide approach is feasible evaluation of the pilot program was appropriate and conducive to high school students in the third study there More trials are needed to further develop a programming model that addresses the unique contingencies embedded in the school environment which include the duration of each meeting was limited to 40 minutes and inconsistent access to physical space within the school

Kachadoorian, 2020 Liberatory education facilitates identity expression promotes empathy and understanding across difference and builds capacity for recognizing and resisting oppressive social structures However many students educational experiences lack intentional practices that subvert societal intolerance Without these practices education can perpetuate social group divide without empowering students to create social change The practice of dialogue specifically critical intergroup dialogue brings together participants from various social group identities in facilitated conversations in pursuit of social transformation This project is an exploration of intergroup dialogue with high school students For the research I carried out a phenomenological study by co facilitating a dialogue group with seven youth from six countries The analysis of the study data namely of the students insights informed the curriculum presented in this field project The curriculum is meant for practitioners to adapt to their community contexts In order to build a more peaceful world and to respond to violence against marginalized communities it is imperative to continue to develop critical peace education interventions that respond to racial class sociopolitical gender national and religious conflict This study and corresponding curriculum respond to this need by making critical intergroup dialogue more accessible to high school students
