need to explore and practice writing assignments that better prepare them for the writing they will undertake once they leave school Unfortunately many teachers do not know what types of writing employers in the business world expect their employees to be able to produce Therefore every chapter provides specific activities for teachers to undertake as they work to improve their writing instruction Suggestions for incorporating appropriate writing assignments that connect to workplace writing are also included The book also provides suggestions for managing the crucial issues facing new teachers in today s classroom testing grading and long range planning
