Picture Personalities Richard DeCordova, 1990 Moving pictures existed for over a decade before anything resembling a star system appeared Then within the space of a very few years American cinema went from being completely devoid of stars to being completely dependent on them *Picture Personalities* is an invaluable account of this crucial development in cinema

and modern culture Conventional wisdom attributes the rise of the star system to the charisma of individual performers or to the public's desire to idolize an appealing star In *Picture Personalities* Richard deCordova argues that the fledgling movie industry and the press conspired to develop the star system along with a system of discourse to support it DeCordova shows how the studios worked to fabricate moral images of the stars marriages and personal lives and how a series of star scandals in the 1920s challenged those images and brought about changes in the conventions of representing stars Copyright Libri GmbH All rights reserved
