Chasing The Moon:

Chasing the Moon Robert Stone, Alan Andres, 2019-06-04 JFK issued the historic moon landing challenge. These are the stories of the visionaries who helped America complete his vision with the first lunar landing fifty years ago. A Companion Book to the AMERICAN EXPERIENCE Film on PBS. Going in depth to explore their stories beyond the PBS series. Writer producer Robert Stone called one of our most important documentary filmmakers by Entertainment Weekly brings these important figures to brilliant life. In 1961 President John F Kennedy proposed the nation spend twenty billion dollars to land a man on the Moon before the end of the decade. Based on eyewitness accounts and newly discovered archival material, Chasing the Moon reveals for the first time the unknown stories of the fascinating individuals whose imaginative work across several decades culminated in America's momentous achievement. More than a story of engineers and astronauts, the moon landing now celebrating its fiftieth anniversary grew out of the dreams of science fiction writers, filmmakers, military geniuses, and rule-breaking scientists. They include Science fiction author Arthur C Clarke whose writing inspired some of the key players in the Moon race. A scientific paper he wrote in his twenties led to the U.S. beating Russia in one area of space communications satellites. Wernher von Braun, the former Nazi military genius who oversaw Hitler's rocket weapons program. After working on ballistic missiles for the U.S. Army, he was recruited by NASA to manage the creation of the Saturn V moon rocket. Astronaut Frank Borman, commander of the first mission to circumnavigate the Moon, whose powerful testimony before Congress in 1967 decisively saved the U.S. lunar program from being cancelled. Poppy Northcutt, a young mathematician who was the first woman to work in Mission Control. Her media exposure as a unique presence in this all-male world allowed her the freedom to stand up for equal rights for women and minorities. Edward Dwight, an African American astronaut candidate recruited at the urging of the Kennedy White House to further the administration's civil rights agenda, but not everyone welcomed his inclusion. Setting these key players in the political, social, and cultural climate of the time and including captivating photographs throughout, Chasing the Moon focuses on the science and the history but most important, the extraordinary individuals behind what was undoubtedly the greatest human achievement of the twentieth century.

Chasing the Moon: the Story of the Space Race - from Arthur C. Clarke To the Apollo Landings Robert Stone, 2020-05-18. In a world divided by the ideological struggles of the Cold War, the Vietnam War, and the Civil Rights Movement, more than one fifth of the people on the planet paused to watch the live transmission of the Apollo 11 mission. To watch as humanity took a giant leap forward. A companion book to the landmark documentary series on BBC TV. The journey from Cape Canaveral to the Moon was a tremendous achievement of human courage and ingenuity. It was also a long, deadly march, haunted by the possibility of catastrophic failure on the world's stage. In an era when the most advanced portable computer weighed 70 pounds, had a 36 kilobit memory, and operated on less power than a 60-watt lightbulb, the sheer audacity of the goal is breathtaking. But the triumph of imagination and the unity of the Earth that day would change the world. Based on

eyewitness accounts and newly discovered archival material Chasing the Moon reveals the unknown stories of the individuals who made the Moon landing a possibility from inspirational science fiction writer Arthur C Clark and controversial engineer Wernher von Braun to pioneers like mathematician Poppy Northcutt and astronaut Edward Dwight It vividly revisits the dawn of the Space Age a heady time of scientific innovation political calculation media spectacle visionary impulses and personal drama **Chasing The Moon By Gayathri Ganesh** Gayathri Ganesh, Chasing The Moon By Gayathri Ganesh
