

Excel® 2010 Functions & Formulas

Glossary

- 1** Formula: An equation in a cell that results in a new value.
- 2** Function: Pre-built formula that performs an operation on values resulting in one or more values.
- 3** Argument: The values used by a function. Can be another function (creating a nested function).
- 4** Constant: An unchanging value.
- 5** Operator: Symbol specifying a calculation to perform. The order of precedence for symbols is:
- Arithmetic: + Negative, % Percent, ^ Exponentiation, * and / Multiplication and division, + and - Addition and subtraction
 - Comparison: = Equals, < Less than, > Greater than, <= Less than or equal to, >= Greater than or equal to, <> Does not equal
- 6** Reference: A cell, range of cells, or a name that represents a value or cell(s). The order of precedence for references is:
- : (colon) Range
 - (space) Intersection
 - , (comma) Union

Conditionally Summing Data

The traditional **Sum()** and **Count()** functions can be extended with **SUMIF()** and **COUNTIF()** to only sum or count data that match certain criteria.

=SUMIF(range, criteria, sum_range)

=COUNTIF(range, criteria)

Sums or counts only numbers in **range** that match **criteria**. Optional **sum_range** allows cells summed to be in a different range than cells matching criteria. e.g. =SUMIF(B1:B5, "<0") results in -8 if B1:B5 = 1, -2, 3, -6, 10.

Examples of Summing Selected Data

A toy manufacturer, Happy Toys, uses SUMIF to track worldwide shipment costs by country.

	A	B	C	D
2		Country	Shipment Cost	105.615
3		US	1,098.00	US Shipping
4		Canada	3,674.00	\$3,571.00
5		US	2,473.00	
6		India	8,674.00	
7		Japan	10,632.00	
8		India	8,980.00	

CELL D4 = \$3,571.00 because
=SUMIF(B3:B8, "US", C3:C8) finds all "US" cells in B3:B8 then sums their C3:C8 counterparts.

Being Precise (Rounding)

Use Excel's 12 rounding functions when cells display slightly different values than what is actually stored. For example, **ROUND** reduces the confusion when Excel sums a column of numbers with decimals to a different total than if you summed them manually.

Round Up or Down to a Multiple

=ROUND(number, number of digits)

Rounds to nearest integer, decimal place or multiple of ten. Rounds a **number** to specified **number of digits** where **number** can refer to a cell and **number of digits** can be 0 = round to nearest integer
Positive = round to decimal places
Negative = round to multiples of ten. Rounds up if the portion to be rounded is >= 5.
e.g. =ROUND(2.4376, 2) rounds 2.4376 to 2 decimal places or 2.44
=ROUND(67,562.34, -2) rounds 67,562.34 to the nearest 100, or 67,600.

=MROUND(number, multiple)

Rounds to a specified multiple.
Rounds a positive **number** up and away from 0 if the remainder of dividing **number** by **multiple** is >= half of **multiple**. Also rounds up and away from 0 if negative, producing a larger negative.
A positive **number** must have a positive **multiple** and a negative **number** a negative **multiple**.
e.g. =MROUND(3.4376, 2) rounds 3.4376 up to the nearest multiple of 2 returning 4.
=MROUND(-67,562.34, -0.2) rounds -67,562.34 up to the nearest multiple of -0.2 returning -67,562.4.

Only Round One Way

=ROUNDUP(number, number of digits)

Same as **ROUND** but always rounds up and away from 0. **ROUNDDOWN** always rounds down and toward zero.

=CEILING(number, significance)

Same as **MROUND** except always rounds up unless number is negative and significance is positive. e.g.
CEILING(10.1, 2) = 12
CEILING(-9.9, 2) = -8
CEILING(85.1, -2) = -12
FLOOR is a similar function that rounds down.

=CEILING.PRECISE(number, significance)

Same as **CEILING** but always rounds up. **FLOOR.PRECISE** is the same as **FLOOR** but always rounds down.

=EVEN(number)

Same as **ROUND** but always rounds away from zero to the nearest even integer. **ODD** always rounds away from zero to the nearest odd integer.

=INT(number)

Rounds **number** down to the nearest integer.

Improving Clarity with Range Names

Use range names to help understand and manage cell references within a function. Functions are much easier to understand if their references display as words instead of numbers and letters. For example, the intention of the formula =AVERAGE(B2:B7) becomes clear when =AVERAGE(PurchasePrice) is used.

Name Rules

1. First character of a cell name must be a letter, underscore or backslash.
2. Remaining characters must be alphanumeric, a period or an underscore.
3. Do not use spaces, cell references (e.g. A100, B2C3), just "C", "C", "R", or "r".
4. Restrict name length to 255 characters.
5. Names are not case sensitive.

Creating a Name

Simple names can be created via the worksheet's Name Box. Otherwise, the **FORMULAS, DEFINE NAME** method is preferred.

SCOPE is used within the **DEFINE NAME** method to limit the worksheet(s) within which the name is valid allowing the same name to be used on different worksheets. Also, **SCOPE** can restrict a name's use to a different worksheet than the cells it refers to.

1. To create a range name select the cell(s) to name.
2. Choose **FORMULAS, then [Go To Name]**.
3. Type a name for the range and optionally select the **SCOPE**. Add a **COMMENT** (optional) then press <Enter>.

Names for constants or formulas are created in the same way except they must be preceded by = in **REFERS TO**. The Name Box shows the active cell address or, if defined, the range name.

Creating Several Names at Once

Labels for rows or columns of existing data can be used to create named ranges. Labels can be above, below, left or right of the data.

1. Select existing data and the labels.
2. Choose **FORMULAS, then [Go To Create from Selection]**.
3. Specify which part of the selection to use as names, e.g. Top Row and/or Left Column. [Click] **OK**.

For example:

	A	B	C	D
1	YTD Sales	Qtr1	Qtr2	Qtr3
2	East	123	551	844
3	Central	213	541	779
4	West	888	429	512

Creates 7 named ranges. One for each column and row of data, plus a range called YTD Sales for B3:D4.

Examples of Being Precise

Happy Toys wants to set Canadian prices. Multiplying US prices by the exchange rate may not be market smart. Rounding up is always better for the bottom line so **ROUND** and **MROUND** are abandoned in favor of **CEILING**. Additional tinkering is required to satisfy Marketing's desire for Canadian prices to always end in 99.

CELL B6: =B3*C3 results in 19.551.

CELL B7: =ROUND(B6*C3, 0) results in 19.60. Cell B6 is rounded to the nearest single decimal.

CELL B8: =MROUND(B6*C3, 0.5) results in 19.50. Cell B6 is rounded to the nearest 50 cents.

CELL B9: =CEILING(B3*C3, 0.5) results in 20.00. Cell B6 is rounded up to the nearest 50 cents.

CELL B10: =CEILING(B3*C3, 0.5)-0.01 results in 19.99. One penny is subtracted from cell B9. This is the price selected by Marketing.

	A	B	C
2		US Prices	Ex Rate
3		19.19	1.0188
4			
5		Canadian Prices	Function Used
6		19.551	
7		19.60	ROUND
8		19.50	MROUND
9		20.00	CEILING
10		19.99	CEILING

Cheat Sheet Excel 2010 Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Cheat Sheet Excel 2010 free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Cheat Sheet Excel 2010 free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Cheat Sheet Excel 2010 free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify

the authenticity of the source before downloading Cheat Sheet Excel 2010. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Cheat Sheet Excel 2010 any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Cheat Sheet Excel 2010 Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Cheat Sheet Excel 2010 is one of the best book in our library for free trial. We provide copy of Cheat Sheet Excel 2010 in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Cheat Sheet Excel 2010. Where to download Cheat Sheet Excel 2010 online for free? Are you looking for Cheat Sheet Excel 2010 PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online.
