**Fresh Water** Jill Sherman, 2017-12-15 Water water everywhere Fresh water is one of Earth s most precious natural resources All living things need water to survive but humans also use water in many other ways We cook with water We clean with water We use water to make paper and medicine We even use it to make electricity Natural resources are gifts that Earth gives us The more we use it the more important it is to take care of this supply Color photos fact boxes a hands on activity and Words to Know are also included in this earth science title

*Reflections* Mark Zeitoun, 2023 This book calls for us to develop an informed ethos of respect for water to save ourselves It counts on readers to reflect honestly on the intimate relationship we have developed with the substance because the stakes are high Water has qualities which make it nourishing cleansing and unifying But as the book shows we pump aquifers dry contaminate lakes fight over rivers generally using and abusing water at will Cases from all over the world and especially from the Middle East detail how the lure of profit defeats the counsel to use water sustainably how chauvinist ideologies lead to inequality with monotonous predictability and how the violent logic of war both weaponizes and victimizes water It argues that what we do with water whilst it is in our hands mirrors our behaviour to each other and that society needs to understand water in a new way to reverse the desecration
