**Hemodialysis: The Silent Treatment on the Rise!** Lakiesha Simpson - EL CCHT, 2022-01-10 Hypertension is a preventable disease but it is a silent killer and is one of the contributing factors to kidney failure and ultimately Hemodialysis It is literally

placing the young generation at an alarming rate. A lot of that has to do with the high sodium traditional foods many Asiatic people are consuming on a regular basis. Especially because they grew up eating certain high caloric sodium and sugar enriched foods for too long. I've had my own experiences with hypertension along with my mother battling kidney failure amongst other ailments. Being the first dialysis patient I've ever encountered before I became a Hemodialysis Technician. I want to encourage others that any dietary goal is obtainable and there are natural remedies and there are healthy nutritious alternative favorite foods that prevent hypertension and maintaining your best life whole and fulfilled mentally physically spiritually and emotionally.
