and when many command structures were wiped out almost immediately upon landing and it explains how these factors impacted the combat on the ground and resulted in the Allied forces careful planning going awry The book also describes the elaborate deception carried out by the Allies regarding the invasion landing site and how these efforts impacted battle developments and it presents nine primary documents that treat various aspects of the battle including the lengthy Allied plan for the invasion and primary sources of directives regarding the battle and technical innovations A Reader's Guide to Contemporary Literature William Swan Sonnenschein,1896 **Reference Catalogue of Current Literature** ,1906
