Chevy Astro - GMC Safari, 1985-90 Chilton Automotive Books, The Nichols/Chilton, Chilton, 1991 Language Central for Math helps ELLs and struggling students develop the academic vocabulary necessary to master math. Oftentimes it's the math vocabulary not the mathematical concepts that hinder student mastery. Language Central for Math is designed to directly address this issue and to reinforce the instruction given in the math classroom. The curriculum that serves as the foundation of the program was developed by Fitchburg Public School District MA with a goal to provide better Mathematics access to its growing ELL population. Language Central for Math incorporates this curriculum within an ELL instructional framework developed by Dr. Jim Cummins, Pearson Advisor and Professor at Univ. of Toronto. The program was designed for easy and flexible implementation. It supplements any core math program. Each lesson can be used either 1 class week, ESL class or 15-20 minutes a day before each math class. Historical items are also indexed by subject as well as by the vehicle model and year they relate to. If you own for instance a 1959 Hawk TW Index will give you instant access to everything that has been published about your car and much more. Each listing of course refers you to the specific issue of Turning Wheels and cites the page on which the item begins. Rated excellent by Fred Fox and Bob Palma. They really are that popular. The CJ series arguably started after World War II with the CJ 2A being introduced to the masses and while the early CJs have their share of enthusiasts, the largest group of enthusiasts began their love affair with the AMC-powered Jeep CJ 5s beginning in 1972. Joined by the longer wheelbase CJ 7 models introduced in 1976, the CJ models were wildly popular through their discontinuation in 1986 when the Wrangler was introduced. These were the only models originally equipped with V-8 engines.
